The Holy Bible Urim Thummim Version Volume II is a new translation of the Holy Bible and the first ever published in the original manuscript order this work represents over 30 years of studying and comparing Bible translations but uses a new approach to making the Bible both very readable and accurate to the original languages at the same time the King James Version and Young's Literal Translation have been employed as the base text for many this version will retain much of the literary style of those time honored works but all archaic language has been replaced with modern English more importantly however this version endeavors to be extremely accurate to the Hebrew definitions that comprise the original text as a result new discoveries and a greater detail to the biblical story has now been obtained

Read the Holy Bible like a novel not like a textbook this version of the Holy Bible capitalizes on a new presentation style that has become more popular over the last few years and one that is closer to the original version than most current ones we've dispensed with chapter and verse numbers they weren't added until the 1200s and 1500s respectively and we've put books that were split apart because they wouldn't fit on a single scroll e.g. Ezra and Nehemiah back into single books we've also rearranged some of the books so they follow a more logical timeline and progression we keep books with the same audience or author or same theme or timeline together this makes it more cohesive for you to read we've used the World English Bible a readable translation that allows you to traverse the whole of God's word in thoroughly modern language we hope you enjoy reading this new version of the Holy Bible and may Yahweh bless you
