this guide to financial instruments deals a o with debt instruments asset backed securities equity and equity linked instruments hedging instruments and accounting

finance fictions takes the measure of what it means to live in a world ruled by high finance by examining the tension between psychosis and realism that plays out in the contemporary finance novel when the things traded at the center of the economy cease to be things at all but highly abstracted speculations how do we come to see the real what sorts of narrative can accurately approach the actual workings of a neoliberal economy marked by accelerating cycles of market

crashes economic and political crisis and austerity revisiting such twentieth century classics of the genre as tom wolfe s bonfire of the vanities and bret easton ellis s american psycho de boever argues that the twenty first century is witnessing the birth of a new kind of realistic novel that can make sense of complex financial instruments like collateralized debt obligations credit default swaps and digital algorithms operating at speeds faster than what human beings or computers can record if in 1989 wolfe could still urge novelists to work harder to tame the billion footed beast of reality today s economic reality confronts us with a difference that is qualitative rather than quantitative a new financial ontology requiring new modes of thinking and writing mobilizing the philosophical thought of quentin meillassoux in the close reading of finance novels by robert harris michel houellebecq ben lerner and less well known works of conceptual writing such as mathew timmons credit finance fictions argues that realism is in for a speculative update if it wants to take on the contemporary economy an if whose implications turn out to be deeply political part literary study and part philosophical inquiry finance fictions seeks to contribute to a new mindset for creative and critical work on finance in the twenty first century

ever felt like inflation is messing with your head you re not alone in the price of mind we dive deep into how rising prices affect not just our wallets but our mental well being we re talking anxiety panic buying the struggle to make ends meet and how inflation fuels social unrest and political polarization from the gig economy grind to the anxieties of young people this book explores the hidden mental costs of inflation but it s not all doom and gloom the price of mind also explores the resilience of the human spirit we look at how communities come together in tough times the power of digital connections and the potential of the metaverse and ai to offer solutions this book goes beyond typical economic analyses to offer a fresh perspective on inflation s impact giving you insights you won t find anywhere else

predicting the future for financial gain is a difficult sometimes profitable activity the focus of this book is the application of biologically inspired algorithms bias to financial modelling in a detailed introduction the authors explain computer trading on financial markets and the difficulties faced in financial market modelling then part i provides a thorough guide to the various bioinspired methodologies neural networks evolutionary computing particularly genetic algorithms and grammatical evolution particle swarm and ant colony optimization and immune systems part ii brings the reader through the development of market trading systems finally part iii examines real world case studies where bia methodologies are employed to construct trading systems in equity and foreign exchange markets and for the prediction of corporate bond ratings and corporate failures the book was written for those in the finance community who want to apply bias in financial modelling and for computer scientists who want an introduction to this growing application domain

following the internationalisation globalisation and deregulation of the financial market over the last few decades the financial sector has evolved from a servicing industry into an initiating and leading sector in the international industrialised economy the power of the financial sector including credit rating agencies determines the creditworthiness of companies and countries today s financial sector dominates instead of serving the real economy which puts substantial pressure on all the agencies involved not least the banks to make the profits that will drive economic growth as a result of this pressure moral conduct in the financial sector has been put under severe strain this book examines the experience of the recent financial crisis and argues that a firmer ethical grounding for the financial sector is required to prevent the crisis being repeated the book offers a model for making judgements on financial markets institutions and products the model is built on seven major criteria which are examined in depth justice nature sustainability legality risk and return the stakeholder model and monism this multidisciplinary approach integrates philosophy economics and law to arrive at a new normative approach to financial ethics this book is a must read for finance

students at academic levels but also for professionals in the financial sector who can be helped by implementing the model of nfe in solving financial dilemmas

global finance on screen is the first collection exclusively dedicated to a growing body of multi format and multimedia audiovisual work that this book designates as the finance film finance film provides critical visualizations of the secretive elitist pr firewalled and gender and race biased world of finance and its mysterious characters jargon and products it reconstructs for the screen and for broader audiences finance s logics responsibilities practices and ethos and traces the effects of money markets investment credit debt bubbles and crashes on our well being desires values and actions the chapters for this interdisciplinary collection are written by european and north american scholars in film studies anthropology business ethics cultural studies political economy and sociology they reveal and evaluate the ability of film to document financial cultures reflect economic cultural and political transformations related to financialization indicate the alienating and exploitative consequences of the growing role played by financial services in the global economy mobilize social action against finance s excesses as well as spread finance and capitalist mythology the collection offers in depth investigations of feature films such as wall street freefall margin call justice co the wolf of wall street and the big short and documentaries such as inside job capitalism a love story and in a strange land

budget report for 1929 31 deals also with the operations of the fiscal year ended june 30 1928 and the estimates for the fiscal year ending june 30 1929

an account of the financial world s coming collapse
