horse racing gamble win is based on the author's 25 plus years in gambling and betting on thoroughbred horse races he has bet on horses in the u s canada mexico england germany the middle and far east he has bet at tracks and race books and has been computer betting for the last dozen years he has bet and won on fast surfaces on turf and on wet or even muddy tracks if you want to bet to win follow the system that has worked for over 25 years and you can bet like a pro too it is easy to understand and easy to follow betting on the horses becomes clear and easy when you follow the system it will not automatically show a profit on any one specific day it may even show red figures for a few days but over a minimum of say 35 40 races it will be in the black profit column and you will be able to gamble and win at horse racing regularly the author's records show a consistent long term return on investment roi of about 1 24 that means that every dollar bet or gambled has returned a profit of 24 immediately in cash watching and wagering on beautiful thoroughbred horses is one of the world's most popular sporting activities by using this special report readers will be able to gamble and win chapters include information on betting on the horses gambling winning and following the system how to pick races to bet what odds you need to make a good bet how to bet to win place or exotic computer betting how much to bet using the effective kelly criterion formula the types of races maiden claimer handicap etc importance of jockeys trainers weights equipment changes forms to use for your horse racing notes horse racing gamble win is a proven and profitable system for betting on the horses

a quote i love horse racing betting systems i repeat this quote in many of my books sorry for being boring i have to cover this early in the book as i believe this is probably overlooked by most punters who continue to lose every day please look at the quote below and ponder on this for 5 minutes and ask yourself a question do you actually do this we are looking for a winner in a race not the winner of a race remember the above quote as most punters fail to understand this quote and this is why they lose money most punters look at the race cards looking for the winner of the race they should be looking for the winner in a race you have to be confident you have spotted a potential winner in a race not of a race you have to be prepared not to have a bet on days when there are no winners in a race remember this chapter it will serve you well non handicap horse races most of my uk horse racing system books have centered around uk

handicap horse races this system focuses on non uk handicap races i will explain why i opted for these types of races in handicap races horses are allotted weight in relation to their ability so the best horses are allocated more weight so as to give the inferior horses in the race a chance of winning it is that simple weight is a leveller it slows horses down but it is not that simple as horses can be cleverly placed in races i won't say much more on this but i think you get the point in non handicap uk races it is easier to assess horse form as we do not have to worry about the weight allotted to a horse it's always difficult picking winners for handicap and non handicap races so we must not get complacent let us now look at this brilliant uk horse racing system

this uk and irish handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race i wrote this system so that busy punters using the excellent racing post on the internet for free can find profitable horses quickly in handicap horse races i like this book because i have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate i have written numerous books on horse racing but this is my favourite and most profitable uk and irish horse racing system

the sport of kings must take centre stage as far as this book is concerned as horse racing is the bread and butter of the business for all that punters moan about trainers and jockeys from time to time horse racing attracts thousands into shops up and down the land on a daily basis people have occasional speculative bets on the dogs but when a punter picks up their daily newspaper in the morning they generally cast their eyes up and down the racecards first and foremost why are punters attracted to the hardest races on the card furthermore why do bookmakers like these handicaps so much not only do these handicaps produce some of the most frenzied and varied gambles during the course of the year but the handicapper has done much of the work on the bookmaker's behalf attempting to create a multiple dead heat in the process

the methods and angles that follow have been among ken osterman's favorites over the years they have been developed and tested on races at racetracks all over the country there are systems that cover all three main breeds of horse racing thoroughbreds quarter horses and standardbreds the rules of the handicapping angle are clearly explained and easy to find horses that qualify for a bet there are a couple of systems that use that tote board and require no past performances these are systems that ken osterman has used successfully at race and sports books the rules for each system are clearly explained so it is understood why they work tips for improving these systems are also provided here is the list of the systems thoroughbred 1 best jockey long shot method 2 bet the fastest horse 3 the b6 sprint system for thoroughbreds 4 a beaten favorite system 5 class on the turf 6 the new low claiming price angle 7 the route speed

introductioni must thank you for buying my book and appreciate any comments on the system i have inserted my email address at the end of the book plus feel free to email me if you have any questions or need any help this horse racing system took me approximately 12 months to computer model and test primarily around uk handicap horse races this would have not been possible without my 10 years database of horse form and my i t computer skills uk handicap horse racing fascinates me i find it a great puzzle to solve and love form variables like weight official rating and many more this uk horse racing system has four simple steps that find winners daily and i have outlined tips to get more profit i like using this system for betting singles and doubles which are lethal and produce massive profits in the book i have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily i suggest that you make yourself familiar with each step of the system before you start placing bets i have included 100 s of horse racing result examples that the system produced for the flat and jumps season 2019 2020 so you can back check these results to ensure you understand it in other words you can apply the system on these past results i have outlined using the racing post on the internet and my system with this suggested approach you will become more confident when placing bets or trades on your selections note try to keep away from stupid lucky15 bets and large accas etc these are silly bets for recreational punters who bet with bookmakers at cramped odds i wrote this book to help fellow punters and traders to get an edge i hope you enjoy this one

i graduated from university with a computer science degree many years ago when a degree meant something i was always interested in horse racing and was fascinated in solving the uk horse racing form puzzle i started my own computer business in my early 20 s where i made good money and travelled across europe it was at this point in my life i decided to start a horse tipping business where i had weekly full page colour adverts in the racing post at 2k per advert and offices i left the running of this horse tipping business to staff who were responsible for all parts of the business while i concentrated on my computer business in my late 30 s around 1990 i decided to use my computer skills to computerise and model uk horse racing form using a database built with 10 years of detailed horse racing form it was over a period of 2 years that i concentrated my efforts on uk handicap races in conjunction with the betting exchange betfair this is where i believed maximum profit could be gained the computer model allowed me to process 100 s of handicap races per day and then formulate my system tweeking a horse s weight and bhb or or official rating i must confess this was a difficult puzzle to crack even with a computer program that i wrote to crunch the data i eventually found the correct weight and bhb rating for a horse based on it s last performances in handicap races this ebook outlines this system and can be manually applied easily using the racing post on the internet

this book contains 12 proven uk horse racing systems mainly around uk handicap horse races the horse racing systems vary from normal backing systems lay system betfair place market betting and finally the popular horse dutching system with a twist i have added a final chapter on how to implement a horse racing system at the end of the book which is a working system that i use the 12 uk horse racing systems are as follows best horse racing system page 5 betfair place market uk horse handicap system page 39 horse racing betting dutching system page 60 horse racing betting secret system page 76 horse racing form guide uk page 158 the uk horse racing handicap system page 184 horse racing system seeing the light page 215 the 6f 7f furlong hope horse lay system page 239 most profitable horse racing system page 266 picking winners no problem page 288 the punters lounge horse racing system page 310 how to implement your own uk racing system page 339

introduction the title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is i have written many books around uk horse racing systems and this one i really enjoyed due to the simplicity of this horse racing system and how easy it is to apply the system uses the excellent free racing post website where you can obtain all the form data you need to use this system plus you do not have to be a form expert to understand it i personally think horse racing pundits make heavy weather of horse racing form i.e. looking at a horse's breeding and many other factors i think this information just confuses the average punter i have added a special bonus horse laying system in this book and i think you will enjoy it this laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did i get it so wrong yes it will hurt knowing how much money you lost when you should have not moving back onto the horse backing system picking winners will be very easy for you and even more you will gain confidence and control in your betting this horse racing system normally picks 2 to 3 horses per day in uk handicap horse racing markets you should aim at using betfair to place your bets due to the better prices and in play tactic i will show you in this book understand the system before placing bets i hope you enjoy it
