colouring books for adults are a relatively new phenomenon and many people are still unaware of the benefits that can be achieved by a little time spent doing something as simple as colouring different terms are often used to describe adult colouring with mindfulness and art therapy being the most popular at this moment in time personally i believe relaxartation better describes the precious moments spent relaxing and colouring my relax art ation series of books covers a range of popular themes that many people will find calming and inspiring rather than simple patterns and shapes the first colours of books are dedicated to travel and popular culture colours of italy takes you on a pictorial journey around a country steeped in history the legacy of the roman empire almost seems visible in every town and village rome is also home to the vatican and the two thousand years of history that accompany the roman catholic church the influence of the two cannot be denied but italy is more than the sum of its parts the birthplace of some of the world greatest artists from da vinci to michelangelo it has a long history of what the italians call artisan these days it is just as famous for being the home to the likes of ferrari maserati lamborghini bvlgari d g fendi gucci moschino prada trussardi

while italy has made major progress in the past decade to up skill its population and workers further efforts are needed to improve access to good quality adult learning opportunities

nowadays sustainability is one of the main pillars for organizations revamp and growth sustainability can be summarized as the set of actions based on the mutual respect of economic environmental and social interests no action should be taken unless it simultaneously respects the interests of these three spheres the 17 sustainable development goals sdgs developed by the united nations for the 2030 agenda are moving in this direction among them reducing diversity and strengthening women s empowerment are the main targets of goal 5 gender equality this edited volume discusses three main topics diversity management for sustainable governance of organisation innovation and new technologies for sustainable development of enterprises led by women and agri food fashion luxury and made in italy in sustainable female firms

a fortnightly bulletin on financial and political trends

volume i a an outbreak of a respiratory disease first reported in wuhan china in december 2019 and the causative agent was discovered in january 2020 to be a novel betacoronavirus of the same subgenus as sars cov and named severe acute respiratory syndrome coronavirus 2 sars cov 2 coronavirus disease 2019 covid 19 has rapidly

disseminated worldwide with clinical manifestations ranging from mild respiratory symptoms to severe pneumonia and a fatality rate estimated around 2 person to person transmission is occurring both in the community and healthcare settings the world health organization who has recently declared the covid 19 epidemic a public health emergency of international concern the ongoing outbreak presents many clinical and public health management challenges due to limited understanding of viral pathogenesis risk factors for infection natural history of disease including clinical presentation and outcomes prognostic factors for severe illness period of infectivity modes and extent of virus inter human transmission as well as effective preventive measures and public health response and containment interventions there are no antiviral treatment nor vaccine available but fast track research and development efforts including clinical therapeutic trials are ongoing across the world managing this serious epidemic requires the appropriate deployment of limited human resources across all cadres of health care and public health staff including clinical laboratory managerial and epidemiological data analysis and risk assessment experts it presents challenges around public communication and messaging around risk with the potential for misinformation and disinformation therefore integrated operational research and intervention learning from experiences across different fields and settings should contribute towards better understanding and managing covid 19 this research topic aims to highlight interdisciplinary research approaches deployed during the covid 19 epidemic addressing knowledge gaps and generating evidence for its improved management and control it will incorporate critical theoretically informed and empirically grounded original research contributions using diverse approaches experimental observational and intervention studies conceptual framing expert opinions and reviews from across the world the research topic proposes a multi dimensional approach to improving the management of covid 19 with scientific contributions from all areas of virology immunology clinical microbiology epidemiology therapeutics communications as well as infection prevention and public health risk assessment and management studies
