at the heart of the empire japan won and then lost in the pacific war was manchukuo a puppet state created in northeast china in 1932 not unlike india for the british manchukuo was the crucible and symbol of empire for the japanese in this book the first social and cultural history of japan s construction of manchuria louise young studies how people at home imagined experienced and built the empire that so threatened the world

the japanese fashion designer rei kawakubo of *comme des garçons* is undoubtedly one of the world's major fashion designers in 2017 she was the second living designer to ever be given a retrospective at the renowned costume institute of the metropolitan museum of art in new york her work exerts an extraordinary influence over succeeding generations of designers and is a major point of reference for all those wishing to explore the place of fashion in contemporary culture the 14 essays in this collection written by eminent fashion theorists from around the world ask what is the relationship of kawakubo's work to art philosophy and architecture and ultimately illustrate how kawakubo's creative output allows us to understand the very notion of fashion itself

the routledge companion to the french revolution in world history engages with some of the most recent trends in french revolutionary scholarship by considering the revolution in its global context across seventeen chapters an international team of contributors examine the impact of the revolution not only on its european neighbours but on latin america north america and africa assess how far events there impacted on the revolution in france and suggest something of the revolution's enduring legacy in the modern world the companion views the french revolution through a deliberately wide lens the first section deals with its global repercussions from the mediterranean to the caribbean and includes a discussion of major insurrections such as those in haiti and venezuela three chapters then dissect the often complex and entangled relations with other revolutionary movements in seventeenth century britain the american colonies and meiji japan the focus then switches to international involvement in the events of 1789 and the circulation of ideas people goods and capital in a final section contributors throw light on how the revolution was and is still remembered across the globe with chapters on russia china and australasia an introduction by the editors places the revolution in its political historical and historiographical context the routledge companion to the french revolution in world history is a timely and important contribution to scholarship of the french revolution

in 1970 nine members of a japanese new left group called the red army faction hijacked a domestic airliner to north korea with dreams of acquiring the military training to bring about a revolution in japan the north korean government accepted the hijackers who became known in the media as the yodogō group based on the name of the hijacked plane and two years later they announced their conversion to juche north korea's new political ideology little was heard from the exiles until 1988 when a member of yodogō was unexpectedly arrested in japan and communications with the group opened up in the context of his trial as a former red army faction member journalist kōji takazawa made several trips to north korea reestablished his ties to the group's leader takamaro tamiya and helped to publish the group's writings in japan after kim il sung revealed that yodogō members had japanese wives takazawa published a book of interviews with the women but in the process became suspicious about the romantic stories they told he also wondered about the members who were missing and learned more

details in long private conversations with tamiya after tamiya's sudden death in 1995 takazawa launched his own investigation of what the group had actually been doing for two decades even traveling to europe to follow traces there an example of superb investigative journalism destiny the secret operations of the yodogō exiles offers kōji takazawa's powerful story of how he exposed the yodogō group's involvement in the kidnapping and luring of several young japanese to north korea as well as the truth behind their japanese wives presence in the country takazawa's careful research was validated in 2002 when the north korean government publicly acknowledged it had kidnapped thirteen japanese citizens during the 1970s and 1980s including three people whom takazawa had connected to the yodogō hijackers embedded in his pursuit toward what truly happened to the yodogō members is takazawa's personal reflection of the 1970s a decade when radical student activism swept japan and what it meant to those whose lives were forever changed

after world war ii japanese intellectuals believed that world history was moving inexorably toward bourgeois democracy and then socialism but who would be the agents the active subjects of that revolution in japan intensely debated at the time this question of active subjectivity influenced popular ideas about nationalism and social change that still affect japanese political culture today in a major contribution to modern japanese intellectual history j victor koschmann analyzes the debate over subjectivity he traces the arguments of intellectuals from various disciplines and political viewpoints and finds that despite their stress on individual autonomy they all came to define subjectivity in terms of deterministic historical structures thus ultimately deferring the possibility of radical change in japan establishing a basis for historical dialogue about democratic revolution this book will interest anyone concerned with issues of nationalism postcolonialism and the formation of identities

among the revolutionary movements which shook the nineteenth century world the change of government in japan in 1868 occupies a special place a new dynamic ruling class provoked the overthrow of the old rule of the shogun and in a few years the visible structure of feudal society disappeared the founders of the new meiji rule had themselves been warriors and thought they were able to resist foreign pressure but very quickly they adopted western dress gave their country a modern army built railways and contributed to establishing a great empire the nature of this transformation has been regarded by western historians as revolution and restoration two quite contradictory ideas but in this book paul akamatsu clarifies the picture of the forces at work in this conversion of a backward feudal state into a modern power in a few decades

includes chinese and japanese sections

with which are incorporated the china directory and the hongkong directory and hong list for the far east

list of members in each volume
