the killing zone argues that the united states proved especially effective in winning the cold war in latin america through overt and covert means the united states destabilized governments throughout the hemisphere u s policymakers judged these governments as communist tolerant of communism or oblivious to the communist menace the united states struck against governments that followed constitutional procedures and democratic processes and professed to be committed to socioeconomic reform

knott observes that thomas jefferson and his followers and later andrew jackson and his adherents tended to view hamilton and his principles as un american while his policies generated mistrust in the south and the west where he is still seen as the founding plutocrat hamilton was revered in new england and parts of the mid atlantic states hamilton s image as a champion of american nationalism caused his reputation to soar during the civil war at least in the north however in the wake of gilded age excesses progressive and populist political leaders branded hamilton as the patron saint of wall street and his reputation began to disintegrate book jacket

vol 2 includes appendices 1 and 2 and index

the study of european labor relations has traditionally been divided between two major theoretical perspectives descriptive nation studies and case studies of specific developments have dominated the european continent in contrast the anglo saxon approach has been more explicitly comparative and theoretical in its orientation as a consequence of their unique advantages and common disadvantage of a focus on national developments to the exclusion of general trends europe remains a patchwork of different nations with respect to labor relations hans slomp offers this book as an effort to complement this national perspective with a european view he provides a general introduction to european labor relations offering comparative material from a range of countries each chapter covers a specific period the division into periods is based on important changes in economic and political conditions common to most of europe in

accordance with the continental approach attention is devoted not just to the form but also to the content of labor relations the survey covers the issues of labor relations as practiced by employers or employers associations and trade unions rather than as an academic discipline for the general reader slomp s work provides a much needed survey of european labor relations for the labor relations scholar it facilitates the distinction between what is truly specific for one country and what is a variation from a european trend

ask most americans and they ll tell you that presidential campaigns get dirtier and more negative with every election this text suggests that this may not be as true as we think and shows that over the last dozen elections negativity may have been well publicised but hasn t increased

in his atoms for peace speech of 1953 president dwight david eisenhower captured the tensions and the ironies of the atomic age while nuclear devastation threatened all nations eisenhower believed only nuclear preparedness offered protection while nuclear weapons loomed as the ultimate war cloud nuclear power offered progress and hope in this thought provoking consideration of eisenhower s speech and others leading up to it ira chernus views the atoms for peace speech presented to the general assembly of the united nations not merely as a legitimation of american foreign policy but as itself an act of policy indeed he frames the policy in a new interpretation of eisenhower s broad discursive goal which he calls apocalypse management a plan to allow the united states to manage threats and crises around the world chernus sheds new light on the internal consistency of eisenhower s thought which many observers have found inconsistent as well as on the ways in which the president s rhetoric backed him into a policy corner he had not intended to occupy chernus also reviews the domestic impact of the speech through a detailed examination of media interpretations in the united states this tightly reasoned clearly written study offers a new understanding of the evolution of cold war nuclear policy the power of presidential rhetoric and the political understanding of america s man of peace dwight david eisenhower the full text of eisenhower s speech is presented in the text those interested in american foreign policy will find it compelling reading scholars and students will find it challenging and rewarding analysis
