those personal accounts resurrect the essential experience of children's work play education family relations and coming of age from their own perspectives steering a middle path between the myth of wholesome farm life and the reality of work that was often extremely dangerous. Riney Kehrberg shows both the best and the worst that a rural upbringing had to offer midwestern youth a time before mechanization forever changed the rural scene and radio broke the spell of isolation down on the farm. Truancy was not uncommon and chores were shared across genders yet farm children managed to indulge in inventive play much of it homemade to supplement store bought toys and to get through the long spells between circuses.

Where did the era of divided government come from? What sustains split partisan control of the institutions of American national government year after year? Why can it shift so easily from Democratic or Republican presidencies coupled with Republican or Democratic Congresses? How can the vast array of issues and personalities that have surfaced in American politics over the last forty years fit so neatly within? Indeed, reinforce the sustaining political pattern of our time? These big questions constitute the puzzle of modern American politics. The old answer: a majority and a minority party plus dominant and recessive public issues will not work in the era of divided government. Byron Shafer, a political scientist who is regarded as one of the most comprehensive and original thinkers on American politics, provides a convincing new answer that has three major elements. These elements in combination not divided government as a catch phrase are the real story of politics in our time. The first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities. The old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns. The second element can be seen in the behavior of political parties and party activists whose own preferences don't match those of the general public. That public remains reliably left of the active Republican party on economic and welfare issues and reliably right of the active Democratic party on cultural and national concerns. The third crucial element is found in an institutional arrangement: the distinctively American matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out. In the first half of the book, Shafer examines how dominant features of the Reagan, First Bush, Clinton, and Second Bush administrations reflect the interplay of these three elements. Recent policy conflicts and institutional combatants in Shafer's analysis illuminate this new pattern of American politics. In the second half, he ranges

across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework in this light modern american politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time

placing the era firmly within the american experience this reference illuminates what daily life was really like in the 1950s including for people from the other america those outside the prosperous white middle class daily life in 1950s america shows that the era was anything but uneventful apart from revolutionary changes during the decade itself it was in the 1950s that the seeds took root for the social turmoil of the 1960s and the technological world of today the book s interdisciplinary format looks at the domestic economic intellectual material political recreational and religious life of average americans readers can look at sections separately according to their interests or classroom assignment or can read them as an ongoing narrative by entering the homes of average americans far from the corridors of power we can make sense of the 1950s and see how the headlines of the era translated into their daily lives this readable and informative book is ideal for anyone interested in this formative decade in american life well researched factual material is presented in an engaging way along with lively sidebars to humanize each section it is unique in blending the history popular culture and sociology of american daily life including those of americans who were not white middle class and prosperous

the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life

burton dissects the irreconcilable conflict of interest within the interior department between the bureau of reclamation and the bureau of indian affairs he also examines the methods of managing disputes in contemporary cases and offers original policy recommendations that include establishing an indian water rights commission to help with the paradoxical task now facing the federal government restoring to tribes the water resources it earlier helped give away
