this book examines the emerging problems and opportunities that are posed by media innovations spatial typologies and cultural trends in re shaping identities within the fast

changing milieus of the early 21st century addressing a range of social and spatial scales and using a phenomenological frame of reference the book draws on the works of heidegger merleau ponty and don hide to bridge the seemingly disparate yet related theoretical perspectives across a number of disciplines various perspectives are put forward from media human geography cultural studies technologies urban design and architecture etc and looked at thematically from networked culture and digital interface and other perspectives the book probes the ways in which new digital media trends affect how and what we communicate and how they drive and reshape our everyday practices this mediatization of space with fast evolving communication platforms and applications of digital representations offers challenges to our notions of space identity and culture and the book explores the diverse yet connected levels of technology and people interaction

writing in the immediate aftermath of the second world war the political theorist hannah arendt argued that the plight of stateless people in the inter war period pointed to the existence of a right to have rights the right to have rights was the right to citizenship to membership of a political community since then and especially in recent years theorists have continued to grapple with the meaning of the right to have rights in the context of enduring statelessness mass migration people flows and the contested nature of democratic politics the question of the right to have rights remains of pressing concern for writers and advocates across the disciplines this book provides the first in depth examination of the right to have rights in the context of the international protection of human rights it explores two overarching questions first how do different and competing conceptions of the right to have rights shed light on right bearing in the contemporary context and in particular on concepts and relationships central to the protection of human rights in public international law secondly given these competing conceptions how is the right to have rights to be understood in the context of public international law in the course of the analysis the author examines the significance and limits of nationality citizenship humanity and politics for right bearing and argues that their complex interrelation points to how the right to have rights might be rearticulated for the purposes of international legal thought and practice

this book constitutes the proceedings of the 41st international conference on application and theory of petri nets and concurrency petri nets 2020 which was supposed to be held in paris france in june 2020 the conference was held virtually due to the covid 19 pandemic the 17 regular and 6 tool papers presented together in this volume were carefully reviewed and selected from 56 submissions the focus of the conference is on following topics application of concurrency to system design languages and synthesis semantics process mining and applications extensions and model checking tools
