please note this is a companion version not the original book sample book insights 1 i write this book through the auspices of a woman i have become fond of she is not just a simple matter of having this woman speak for me there are many manipulations and psychological adjustments necessary 2 i am not speaking through ruburt as one would through a telephone i am speaking to each reader individually and i am older than they are at least in terms of age as they think of it i am an energy personality essence no longer focused in physical matter 3 i am a teacher and i have not been a man of letters per se i am primarily a personality with a message you create the world that you know you have been given the most awesome gift of all the ability to project your thoughts outward into physical form 4 your consciousness is not some fiery product formed accidentally through the interworkings of chemical components it is the inner perceiver of reality that exists beyond the threedimensional world it carries within it the memory of each of your past existences and looks into subjective dimensions that are literally infinite

from the bestselling author of seth speaks and the nature of personal reality in september 1984 the voice that had spoken for one of the most profound and prolific metaphysical teachers of the 20th century fell silent seth the entity who described himself as an energy personality essence no longer focused in physical matter had spoken exclusively through jane roberts since 1963 during the long illness that led to her death jane continued to channel seth from her hospital bed but this final work was left unfinished now in the way toward health jane s husband robert butts shares with us the intimate story of jane s final days and the exquisite teachings that seth gave during that time in an examination of the miracle of life in a human body seth speaks about why medicine and therapy often perpetuate illness how the practice of naming diseases can work against us the influence of religion in creating disease how children s health is influenced by parents beliefs humor as an effective factor in healing includes 8 page photo gallery do not think of the mind as a purely mental entity and of the body as a purely physical one instead think of both mind and body as continuing interweaving processes that are mental and physical at once your thoughts actually are quite as physical as your body is and your body is quite as nonphysical as it seems to you your thoughts are you are actually a vital force existing as a part of your environment and yet apart from your environment at the same time jane roberts speaking for seth in the way toward health
