commitment is one of the most researched concepts in organizational behavior this edited book in the siop organizational frontiers series with contributions from many scholars attempts to summarize current research and suggests new directions for studies on commitment in organizations commitment is linked to other concepts ie satisfaction involvement motivation and identification and is studied across cultural lines both the individual and group levels of building and maintaining commitment are discussed

the concept of commitment in the workplace has attracted the attention of academics and practitioners for decades the book will be one of the first on the idea of being committed to multiple foci in the workplace areas such as job satisfaction union issues organizational settings are considered

rational choice theory forms the core of the economic approach to human behaviour it is also the most influential philosophical

account of practical rationality yet there are persistent controversies about the scope of rational choice theory in philosophy and increasingly in economics as well a leading critic is the philosopher and nobel laureate economist amartya sen who put forward a trenchant critique of rational choice theory in his seminal paper rational fools sen emphasizes the importance of commitment those aspects of human behavior which dispose individuals to co operate follow norms and identify with others he argues that rational choice theory cannot accommodate commitment and demands a more adequate account of rationality the question of how to account for the rationality of commitment is very much an open issue and if anything even more pressing today than when sen first raised it in rationality and commitment thirteen leading philosophers and economists discuss sen s claims and propose their own answers to the question of how to account for the rationality of committed action the volume concludes with a specially written reply by sen in which he responds to his critics and provides a rich commentary on the preceding essays

the editors have succeeded in bringing together an excellent mix of leading scholars and practitioners no book on the wto has had this wide a scope before or covered the legal framework economic and political issues current and would be countries and a outlook to the future like these three volumes do 3000 pages 80 chapters in 3 volumes cover a very interdisciplinary field that touches upon law economics and politics

a practical field guide for the unique challenges of data science leadership filled with transformative insights personal experiences and industry examples in how to lead in data science you ll master techniques for leading data science at every seniority level from heading up a single project to overseeing a whole company s data strategy you ll find advice on plotting your long term career advancement as well as quick wins you can put into practice right away
