this is a comprehensive history that looks at some of the more obscure early churches in the east from the preface this book forms a continuation or second part of the orthodox eastern church by the same author its object is to describe the lesser separated eastern churches in the same way as that described the greatest greatest and lesser by the way are only meant to qualify their size no opinion is thereby expressed as to their relative merit see p 446 there is a difference in the subject of this volume which affects its treatment these smaller churches are much less known there is a vast literature on the orthodox church so that the only difficulty in writing the former book was that of selection and arrangement moreover orthodox official documents and service books at least in their original form are in greek which it is no great merit to know much of the matter treated here is rather of the nature of a land if not unknown at least difficult of access there is far less information to be had about the other eastern churches and their native literature is contained in many difficult tongues so to write this book was a much more arduous task and the result may be less satisfactory on the other hand it has the advantage of greater originality concerning the orthodox i said nothing which could not be found fairly easily in european books already here i think i have been able in certain points to bring what will be new to anyone who has not made some study of eastern matters and languages part of this is gathered from notes made by myself in their lands interviews with prelates and clergy of these rites observations of their services and information supplied by friends in those parts as for literary sources i have of course read many books on eastern churches by modern writers but as will be seen from my references i have compiled my own book as far as i could from original sources it is perhaps hardly

necessary to say that all my quotations are at firsthand
