the relationship between religion and dance is as old as humankind contemporary methods for studying this relationship date back a century the difference between these two time frames is significant scholars are still developing theories and methods capable of illuminating this vast history that take account of their limited place within it a history of theory and method in the study of religion and dance takes on a primary challenge of doing so overcoming a conceptual dichotomy between religion and dance forged in the colonial era that justified western christian hostility towards dance traditions across six continents over six centuries beginning with its enlightenment roots

lamothe narrates a selective history of this dichotomy revealing its ongoing work in separating dance studies from religious studies turning to the bushmen of the african kalahari lamothe introduces an ecokinetic approach that provides scholars with conceptual resources for mapping the generative interdependence of phenomena that appear as dance and or religion

this volume presents international perspectives on the application and development of theory and methodology in researching higher education topics discussed include critical race theory the use of communities of practice theory participant ethnography and decolonization using indigenous principles
