poets have long been defending poetry in prose and essays by sidney shelley and others are a familiar and important part of the anglo american literary tradition this book identifies and examines a related genre the verse defense of poetry which shares the same impulse that has led to the composition of prose essays namely the desire to protect poetry from its detractors and to promote its value as a vital human endeavor in the last century or so this impulse to engage questions of poetry s value in poems has become increasingly widespread and it has dominated the careers of at least five poets h d wallace stevens w h auden adrienne rich and geoffrey hill though these poets espouse very different aesthetic principles they like many of their contemporaries have repeatedly turned to apology in their verse at first glance this seems an odd gesture given that the readers and writers of poetry are those who least need convincing of poetry s worthiness but questioning poetry in verse is a form of lyric introspection that is productive and well suited for a modern poet characterized as one of indifference defense helps these authors make a claim for poetry s cultural relevance as well as for its private profit jeannine johnson is a preceptor in expository writing at harvard university
