investigating the rise and shape of the earliest churches in rome lampe integrates history archaeology theology and social analysis he also takes a close look at inscriptional evidence to complement the reading of the great literary texts from paul s letter to the romans to the writings of clement of rome montanus and valentinus i want to learn about the daily lives of the urban roman christians of the first two centuries the realities of their social lives my ultimate goal is to contribute at least one element to a multidimensional interpretation of texts and faith expressions of early christianity peter lampe

receptions of paul during the first two centuries exploration of the jewish matrix of early christianity examines the historical context of paul and the way paul s jewish heritage was received contributors take into consideration the aftermath of the jewish war and its impact on the development of the jesus movement and early christian jewish relations in the following period the

chapters come to the conclusion that after the jewish war the reception of the authentic paul was transformed more and more into the tradition about paul based and established by the second and third generations of jesus believing gentiles which perceived paul as a convert from what is labeled judaism to the complete opposite of it christianity

the present volume is based on a conference held in october 2019 at the faculty of theology of humboldt university berlin as part of a common project of the australian catholic university the katholieke universiteit leuven and the humboldt university berlin the aim is to discuss the relationships of jews and christians in the first two centuries ce against the background of recent debates which have called into question the image of parting ways for a description of the relationships of judaism and christianity in antiquity one objection raised against this metaphor is that it accentuates differences at the expense of commonalities another critique is that this image looks from a later perspective at historical developments which can hardly be grasped with such a metaphor it is more likely that distinctions between jews christians jewish christians christian jews etc are more blurred than the image of parting ways allows in light of these considerations the contributions in this volume discuss the cogency of the parting of the ways model with a look at prominent early christian writers and places and suggest more appropriate metaphors to describe the relationships of jews and christians in the early period

the papers in this volume are organized around the ambition to reboot the writing of history about jews and christians in the first two centuries ce many are convinced of the need for a new perspective on this crucial period that saw both the birth of rabbinic judaism and apostolic christianity and their parting of ways yet the traditional paradigm of judaism and christianity as being two totally different systems of life and thought still predominates in thought handbooks and programs of research and teaching as a result the sources are still being read as reflecting two separate histories one jewish and the other christian the contributors to the present work were invited to attempt to approach the ancient jewish and christian sources as belonging to one single history precisely in order to get a better view of the process that separated both communities in doing so it is necessary to pay constant attention to the common factor affecting both communities the roman empire roman history and roman archaeology should provide the basis on which to study and write the shared history of jews and christians and the process of their separation a basic intuition is that the series of wars between jews and romans between 66 and 135 ce a phenomenon unrivalled in antiquity must have played a major role in this process thus the papers are arranged around three focal points 1 the varieties of jewish and christian expression in late second temple times 2 the socio economic military and ideological processes during the period of the revolts and 3 the post revolt jewish and christian identities that emerged as such the volume is part of a larger project that is to result in a source book and a history of jews and christians in the first and second centuries
