offers advice on designing and customizing sewing patterns addressing such topics as tools and equipment fabrics measurements fitting and adjusting volume fastenings and pockets

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

excerpt from pattern making a practical treatise for the pattern maker on wood working and wood turning tools and equipment construction of simple and complicated patterns modern molding machines and molding practice pattern making is an art requiring the skill of a carpenter or wood turner combined with a rare mechanical knowledge and an ability to visualize the machines for which the patterns are to be made this art has expanded wonderfully in the past few years just as other branches of our mechanical industries have developed for the

work of the pattern maker is the first step in most of the mechanical operations which result in a completed machine modern machinery is so complicated and has grown to such a size that the complexity of the patterns has increased in proportion this has necessitated a greater skill on the part of the pattern maker in the design of the patterns and in the making of the cores as well as a wider acquaintance with the various foundry methods which have their effect upon pattern construction furthermore with the increase in the duplication of castings in modern manufacturing has come a wider use of metal master patterns which have given rise to new responsibilities for the pattern maker and have made him perforce a machinist as well as a carpenter this article aims to cover fully the subject of pattern making giving the tools and equipment necessary the design details of simple and complicated patterns for typical cases the use of green and dry sand cores and finally the construction and design of a typical molding machine with details as to the manner in which the castings are designed to suit this machine both the original and the revising authors have had exceptional experience not only in practical work but in the teaching of the subject and it is the hope of the publishers that the book will be found of distinct practical value in its field about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work as a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
