virtual wilderness will inspire you to new creative heights writes rob sheppard editor of outdoor photographer and pcphoto magazines

when captain john smith sailed up the chesapeake bay in 1608 he discovered a land so rich in wildlife that numbers could not begin to tell the whole story the abundances of birds blackened the sky meat eating wolves and mountain lions had so much game at their disposal that they didn't bother the caged livestock deer could be easily killed ten or fifteen at a time by the native tribes using primitive tools the wildlife was so abundant that it was no wonder generations of europeans used to the barren countryside at home could not imagine the need to conserve so they didn't in fact they set out on a course to eliminate the less desirables of the wild kingdom soon the colonists also developed a tremendous trade with europe in skins furs feathers and even live animals for the enjoyment of the king and high society as guns improved birds were not only hunted for food but also were used for target practice and the skies rained down passenger pigeons and other migratory birds on the water ducks and swans were slaughtered dozens with a single shot three hundred years after captain smith marveled at the numbers of deer they were gone from most of the chesapeake region beavers had been trapped to near extinction mountain lions black bears bobcats and wolves had been harassed and killed the population of ducks that once numbered over a million was decimated even the forests fell silent in this book author photographer pat vojtech uses

historical data to recreate the story of wildlife of the chesapeake region and reveal how close mankind came to eliminating forever many of the beautiful wildlife species taken so much for granted today she relates how hard the struggle was to bring some chesapeake wildlife species back from the brink of extinction while this is a history of wildlife in the chesapeake watershed it mirrors society's impact on wildlife throughout north america and around the world more than the past four hundred years illustrated with more than 150 color photographs this is a book any lover of wildlife or student of history will cherish
