summary this book is if you've ever wondered about human behavior wonder no more in the laws of human nature greene takes a look at 18 laws that reveal who we are and why we do the things we do humans are complex beings but greene uses these laws to strip human nature down to its bare

bones every law that he presents is supported by a real life historical account with an insightful twist to drive the point home as you read the book don't be surprised if you get the feeling that everyone you know including yourself is described in the book disclaimer this is an unofficial summary and not the original book it is designed to record all the key points of the original book

unpopular in its day david hume's sprawling three volume a treatise of human nature 1739-40 has withstood the test of time and had enormous impact on subsequent philosophical thought hume's comprehensive effort to form an observationally grounded study of human nature employs john locke's empiric principles to construct a theory of knowledge from which to evaluate metaphysical ideas a key to modern studies of eighteenth century western philosophy the treatise considers numerous classic philosophical issues including causation existence freedom and necessity and morality unabridged republication of the edition originally published by oxford at the clarendon press london 1888

this book explores the idea of human nature and the many understandings of it put forward by such diverse figures as aristotle rousseau marx freud darwin and e o wilson each chapter looks at a different theory and offers a concise explanation assessing the theory's plausibility without forcing it into a mould some chapters deal with the ideas of only one thinker while others such as the chapters on liberalism and feminism present a variety of different positions a clear distinction is made between theories of human nature and the political theories which so often follow from them for the new edition loptson has addressed the new developments in the rapidly expanding genetic and paleontological record as well as expanded the discussion of the christian theory of human nature by incorporating the ideas of the marx scholar and social theorist g a cohen the new edition has also been substantively revised and updated throughout

robert greene is a master guide for millions of readers distilling ancient wisdom and philosophy into essential texts for seekers of power understanding and mastery now he turns to the most important subject of all understanding people's drives and motivations even when they are unconscious of them themselves we are social animals our very lives depend on our relationships with people knowing why people do what they do is the most important tool we can possess without which our other talents can only take us so far drawing from the ideas and examples of pericles queen elizabeth i martin luther king jr and many others greene teaches us how to detach ourselves from our own emotions and master self control how to develop the empathy that leads to insight how to look behind people's masks and how to resist conformity to develop your singular sense of purpose whether at work in relationships or in shaping the world around you the concise laws of human nature offers brilliant tactics for success self improvement and self defence

the laws of human nature 2018 takes an in depth look at the many aspects of the human condition that often go overlooked or unacknowledged as author robert greene explains we are all a bit narcissistic irrational short sighted and prone to compulsive and aggressive behavior but once we accept and start to understand these aspects of human nature we can begin to control and even benefit from them

originally published in 1928 this book was an attempt to acquaint the general public with the fundamentals of individual psychology at the same time it is a demonstration of the practical application of these principles to the conduct of everyday relationships and the organization of our personal life based upon a years lectures to audiences at the people's institute in vienna the purpose of the book was to point out how the mistaken behaviour of the individual affects harmony of our social and communal life to teach the individual to recognize their own mistakes and finally to show them how they may effect a harmonious adjustment to the communal life adler felt that mistakes in business or in science were costly and deplorable but mistakes in the conduct of life are usually dangerous to life itself this book is dedicated by the author in his preface to the task of illuminating man's progress toward a better understanding of human nature

the science of human nature

in his new preface e o wilson reflects on how he came to write this book how the insect societies led him to write sociobiology and how the political and religious uproar that engulfed that book persuaded him to write another book that would better explain the relevance of biology to the understanding of human behavior

this book is written for young students in high schools and normal schools no knowledge can be of more use to a young person than a knowledge of himself no study can be more valuable to him than a study of himself a study of the laws of human behavior that is the purpose of this book what is human nature like why do we act as we do how can we make ourselves different how can we make others different how can we make ourselves more efficient how can we make our lives more worth while this book is a manual intended to help young people to obtain such knowledge of human nature as will enable them to answer these questions i have not attempted to write a complete text on psychology there are already many such books and good ones too i have selected for treatment only such topics as young students can study with interest and profit i have tried to keep in mind all the time the practical worth of the matters discussed and the ability and

experience of the intended readers

human nature is a term most frequently used and yet little understood the average person knows in a general way what is meant by it but very few are able to give an off hand definition of the term or to state what in their opinion constitutes the real essence of the thought expressed by this familiar phrase human nature means the nature of man or mankind nature in this usage means the natural disposition of mind of any person temper personal character individual constitution the peculiar mental characteristics and attributes which serve to distinguish one person from another thus we see that the essence of the nature of mankind or of a particular human being is the mind the mental qualities characteristics properties and attributes human nature is then a phase of psychology and subject to the laws principles and methods of study examination and consideration of that particular branch of science human nature expresses itself in two general phases the phase of inner states and the phase of outer forms these two phases however are not separate or opposed to each other but are complementary aspects of the same thing there is always an action and reaction between the inner state and the outer form between the inner feeling and the outer expression if we know the particular inner state we may infer the appropriate outer form and if we know the outer form we may infer the inner state these two elements or phases in their constant action and reaction manifest the phenomena of human nature and a knowledge of each and both give to us the key which will open for us the door of the understanding of human nature this is what this book is concerned with teaching you the ability to read human nature puts you in a position of power
