analyzing oppression presents a new integrated theory of social oppression which tackles the fundamental question that no theory of oppression has satisfactorily answered if there is no natural hierarchy among humans why are some cases of oppression so persistent cudd argues that the explanation lies in the coercive co opting of the oppressed to join in their own oppression this answer sets the stage for analysis throughout the book as it explores the questions of how and why the oppressed join in their oppression cudd argues that oppression is an institutionally structured harm perpetrated on social groups by other groups using direct and indirect material economic and psychological force among the most important and insidious of the indirect forces is an economic force that operates through oppressed persons own rational choices this force constitutes the central feature of analysis and the book argues that this force is especially insidious because it conceals the fact of oppression from the oppressed and from others who would be sympathetic to their plight the oppressed come to believe that they suffer personal failings and this belief appears to absolve society from responsibility while on cudd s view oppression is grounded in material exploitation and physical deprivation it cannot be long sustained without corresponding psychological forces cudd examines the direct and indirect psychological forces that generate and sustain oppression she discusses strategies that groups have used to resist oppression and argues that all persons have a moral responsibility to resist in some way in the concluding chapter cudd proposes a concept of freedom that would be possible for humans in a world that is actively opposing oppression arguing that freedom for each individual is only possible when we achieve freedom for all others
