global security malte riemann is assistant professor in contemporary armed conflict leiden university the netherlands norma rossi is associate lecturer in international relations university of st andrews uk

pt 1 theoretical approaches to security and different securities pt 2 contemporary security challenges pt 3 regional security challenges pt 4 confronting security challenges

this new textbook provides students with a comprehensive and accessible introduction to the subject of security studies with a strong emphasis on the use of case studies in addition to presenting the major theoretical perspectives the book examines a range of important and controversial topics in modern debates covering both traditional military and non military security issues such as proliferation humanitarian intervention food security and environmental security unlike most standard textbooks the volume also offers a wide range of case studies including chapters on the usa china the middle east russia africa the arctic the middle east europe and latin america providing detailed analyses of important global security issues the 34 chapters contain pedagogical features such as textboxes summary points and recommended further reading and are divided into five thematic sections conceptual and theoretical military security non military security institutions and security case studies this textbook will be essential reading for all students of security studies and highly recommended for students of critical security studies human security peace and conflict studies foreign policy and international relations in general

this text takes issue with arguments that security studies is a discipline of limited use in making sense of the post cold war world it argues that many of the most interesting theoretical issues in international relations can most usefully be studied through a prism labelled security studies the book combines chapters which provide a variety of critical perspectives on the discipline and address a diverse range of theoretical concerns with chapters that examine such substantive issues as weapons proliferation and the changing meaning of security for actors in the erstwhile conflict between east and west

this textbook introduces students to the sub field of critical security studies through a detailed yet accessible survey of emerging theories and practices this third edition contains two new chapters on ontological security and in security and the everyday and has been fully revised and updated written in an accessible and clear manner critical security studies offers a comprehensive and up to date introduction to critical security studies locates critical security studies within the broader context of social and political theory evaluates fundamental theoretical positions in critical security studies against a backdrop of new security challenges the book is divided into two main parts part i approaches surveys the newly extended and contested theoretical terrain of critical security studies constructivist theories critical theory feminist and gender approaches postcolonial perspectives poststructuralism and international political sociology ontological security and securitisation theory part ii issues examines how these various theoretical approaches have been put to work in critical considerations of environmental and planetary security health human security and development information technology and warfare migration and border security in security and the everyday and terror risk and resilience the historical and geographical scope of the book is deliberately broad and each of the chapters in part ii concretely illustrates one or more of the approaches discussed in part i with clear internal referencing allowing the text to act as a holistic learning tool for students this book is essential reading for upper level students of critical security studies and an important resource for students of international global security political theory and international relations

the present volume engages visuality in security from a variety of angles and explores what the subfield of visual security studies might be to structure this experimentation and to encourage a more careful and multifaceted approach to visuality and security the main conceptual move in this volume is to envision three different transversal meeting points between security and visuality visuality as a modality active in representations and signs of security visuality as practice active in enacting security and visuality as a method active in investigating security these three approaches structure the book together with three areas in which we see visuality as especially pertinent in relation to security in security technologies that en vision security and are themselves the objects of visions of security in

spectacles of security and security spectatorship and in ways of making security visible in this way the volume works to sensitize international relations research to visual forms of knowledge and practice by examining visual aspects of security at the same time it allows for debate on how this particular modality of the sensible not only affects what is visible and what is not but also how authority and truth claims come about and how they are compared and evaluated through engagement with security via the language or code of the visual it is possible to interrogate how scholars in the field understand visuality as well as the economy grammar and performativity of visual articulation and the production of knowledge the volume also examines how visuality can be used as a method in doing research and as a way of presenting research results visual security studies is not a new theory of security or its study instead the present volume suggests that visuality should be envisioned as an aspect of security studies that can be incorporated into pre existing approaches the aim is to highlight how much of contemporary practice is visual and to foster an increased attentiveness to visuality in security politics security practice and to the possibilities of employing visual research methods in security scholarship this book will be of much interest to students of critical security media studies surveillance studies visual sociology and ir in general

traditional studies of security focused on the survival of states and the impact of wars the development of technology and the nuclear deterrent since the end of the cold war however a new range of threats has been added to the security lexicon and it is now common to stress that human survival is threatened not just by the use of military power by a hostile state but also by environmental damage aids hiv water shortages famine and plague security the basics is a concise introduction to the contemporary study of security issues and explores key questions such as should security be focused on the state or the individual how has the nature of security changed since 9 11 how is the security of women or children affected by war poverty and disease to what extent will the future of security be about cyber security featuring a range of international case studies suggestions for further reading a glossary and notes on key thinkers security the basics is the ideal starting point for anyone interested in the study of the struggle for survival in the 21st century

with the end of the cold war threats to national security have become increasingly non military in nature issues such as climate change resource scarcity infectious diseases natural disasters irregular migration drug trafficking information security and transnational crime have come to the forefront this book provides a comprehensive introduction to non traditional security concepts it does so by covering contemporary security issues in depth bringing together chapters written by experts in each area guiding you towards additional material for your essays and exams through further reading lists giving detailed explanations of key concepts testing your understanding through end of chapter questions edited by a leading figure in the field this is an authoritative guide to the key concepts that you ll encounter throughout your non traditional and environmental security studies courses

security studies critical perspectives introduces the analysis of security from critical and interdisciplinary perspectives taking a student centred approach to understanding contemporary security themes and cases it provides an accessible set of analytic steps so that students develop the critical thinking skills and confidence to ask important questions about security and our worlds in contemporary politics common sense security assumptions that reproduce forms of oppression and domination are revealed and their justifications decentred while perspectives inclusive of class gender and sexualities ethnicity and race religion disability culture and ideology political belonging and the global south are introduced

at a time of grave ethical failure in global security affairs this is the first book to bring together emerging theoretical debates on ethics and ethical reasoning within security studies in this volume working from a diverse range of perspectives poststructuralism liberalism feminism just war securitization and critical theory leading scholars in the field of security studies consider the potential for ethical visions of security and lay the ground for a new field ethical security studies these ethical visions of security engage directly with the meaning and value of security and security practice and consider four key questions who or what should be secured what are the fundamental grounds and commitments of different security ethics who or what are the most legitimate agents providers or speakers of security

what do ethical security practices look like what ethical principles arguments or procedures will generate and guide ethical security practices informed by a rich understanding of the intellectual and historical experience of security the contributors advance innovative methodological analytical political and ethical arguments that represent the cutting edge of the field this book opens a new phase of collaboration and growth that promises to have great benefits for the more humane effective and ethical practice of security politics this book will be of much interest to students of critical security studies ethics philosophy and international relations

this is the first book to examine the range of thinking about security that has emerged in the academic literature over the past fifteen years
