jean de joinville s joinville s history of saint louis is a contemporary account of one of the most revered french rulers in the middle ages as noted in the opening words the life of st louis written by the lord de joinville has always been considered as one of the most precious monuments of our history and as a work that contains many of those qualifications which we are accustomed to wish for in the lives of private persons the author was of very considerable rank by his birth his connections his employments and still more from his personal merit he had not only lived under the reign of the prince whose life he has written but was moreover personally attached to him for twenty two years and by consequently following him in his expeditions had participated in the most important events of his reign the air of candor and good faith that accompanies his recitals prejudices the reader in his favor the scrupulous attention he shows not to mention facts of which he was not a witness and only to touch on such as he relates from the report of others as his history requires this attention i repeat ought to convince us that the lord joinville had no other intention than to transmit to posterity nothing but what he was perfectly well informed of his history is not like the greater part of the chronicles of those times a simple recital of what passed in france and elsewhere during the reign of st louis it makes us intimately acquainted with that monarch it gives us a just idea of his heart and head and paints equally well the great man the great saint and the great king

a photographic history of saint louis missouri

this biographical dictionary of some 3 000 photographers and workers in related trades active in a vast area of north america before 1866 is based on extensive research and enhanced by some 240 illustrations most of which are published here for the first time the

territory covered extends from central canada through mexico and includes the united states from the mississippi river west to but not including the rocky mountain states together this volume and its predecessor pioneer photographers of the far west a biographical dictionary 1840 1865 comprise an exhaustive survey of early photographers in north america and central america excluding the eastern united states and eastern canada this work is distinguished by the large number of entries by the appealing narratives that cover both professional and private lives of the subjects and by the painstaking documentation it will be an essential reference work for historians libraries and museums as well as for collectors of and dealers in early american photography in addition to photographers the book includes photographic printers retouchers and colorists and manufacturers and sellers of photographic apparatus and stock because creators of moving panoramas and optical amusements such as dioramas and magic lantern performances often fashioned their works after photographs the people behind those exhibitions are also discussed

the plan adopted in this volume demands a word of explanation the reader must not look for a history of st louis that is for a chronological and methodical account of the actions of his life and the events of his reign this would not in our opinion correspond to the general design of the collection in which this essay is to find a place we have thought it better to make a study of the character and sanctity of this great christian and royal person considered under the different aspects of his private and public life it has been our ideal to present to our readers a series of historic pictures in stained glass devoted to the life of st louis in the different compartments of this series or to speak without metaphor in the successive chapters of this work we have made large use of the text of writers contemporary with the holy king necessarily made intelligible to modern readers we have also given as far as possible the very words of the holy king nothing throws more light on the mind of st louis than his instructions to his son philip and to his daughter isabel we cannot know and describe him better than his confessor geoffrey of beaulieu his chaplain william of chartres and the confessor of his wife queen margaret whose writings afford such a valuable summary of the inquiry made for his canonisation wherever it was possible we have used the words of the sire de joinville the good seneschal who has in our own day found an editor and interpreter worthy of him in the person of m natalis de waillly we hope that our quotations may induce our readers to draw more largely and directly from this incomparable source which now flows with limpid clearness from a

somewhat different point of view we feel the same desire with respect to the valuable works which have guided us in the choice and reproduction of the original texts and which have supplemented these texts since the reader will not find here a history of st louis it may be sought in the interesting books which are quoted in the ensuing pages we feel that we shall not have laboured in vain if we add to the readers of m wailly of m felix eaure and m lecoy de la marche we must also mention particularly m elie berger s remarkable work on blanche of castile and on the relations between louis ix and innocent iv a protestant by birth and education we wish that others of the same religion understood as well as he does the duty of historic impartiality and the respect due from all good frenchmen to the national religion and the catholic glories of their country we have also profited although not without reserve from the sincere homage recently rendered by an honest freethinker m c h langlois to st louis s memory in a parisian review an appearance of learned research is not altogether

includes titles on all subjects some in foreign languages later incorporated into memorial library

excerpt from saint louis the future great city of the world with biographical sketches of the representative men and women of st louis and missouri in presenting the historical sketch of st louis i feel a laudable pride believing that it is the best yet published and that it will be so decided by the reader in the history of the city the greater attention has been given to that dim traditionary period the record of which is fragmentary and which therefore requires our efforts to preserve from that decay which follows all events inscribed only in the recollection of men the records of our later history as a city have been too fully and voluminously kept to run the risk of oblivion and their elabo ration is left to some future historian the statistics and facts which set forth the present advancement of st louis in her material growth have been collected with care and are presented without exaggeration or any unnecessary ornament in their simplicity they are eloquent of a present full of grandeur and a future glowing with brighter promise than the achievements of the past can even measure in that promise so plainly to be read so far on its way to fulfillment i see the consummation of my great ambition for the city of my home the city of my ardent hope and love about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art

technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Eventually, **The Sanctity Of Louis Ix Early Lives Of Saint Louis By Geoffrey Of Beaulieu And William Of Chartres** will totally discover a supplementary experience and finishing by spending more cash. nevertheless when? reach you take on that you require to get those all needs taking into consideration having significantly cash?
