the story of the mysterious ancient priesthood with a mission to preserve their secret knowledge to help humanity but also to control the development of the world

for many years now there has been an upsurge in revelation stories and alternative viewpoints on man's history people such as graham hancock and lawrence gardner have brought to light many new ideas and many new problems now there is a new theory which is all encompassing and clearly brings into focus a more sinister reason behind the emergence of civilisation in his theory on atlantis graham hancock is receiving much admiration and academic acclaim standard academic thought is more towards the spontaneous eruption of civilisation across the globe with little or no explanation of why there are so many similarities between the cultures now philip gardiner in his new book the shining ones is set to turn even this upon its head the theory is so simple that it begs the question why has it not been thought of before the reason for universal similarity of architecture language art travel and religious belief is quite simply an ancient and secret religious brotherhood who have hidden themselves deep within the symbols ciphers and codes of our ancient texts for hundreds of years they held a secret knowledge and power base which spread with them across the globe the very title that they have given themselves is hidden within the standard text and religious books we use every day the shining ones put like this the whole thing can sound like an x files conspiracy theory however the author has invested huge amounts of time and energy checking researching and seeking the advice of academics now the theory is attracting the attention of historians who can see that the patterns are as subtle as this author proposes the fact is this theory does explain away all the problems with dating and variations that people such as hancock have come up against many academics and especially egyptologists are now turning to this way of

thinking and with gardeners spirit and broad knowledge in history and language the history of the ancients and the secrets that they hold are becoming more clear there are of course dissenters the author has been accosted for his standpoint and there are still those hardened academics and even non academics who refuse to even listen however there is a major tv documentary in pre production stages and with interviews planned across the nation on radio and tv the message may soon be accepted as a credible theory

with his recent best selling books and hundreds of articles as well as radio and tv appearances philip gardiner has started a crusade for uncovering the truth and nothing could be more indicative of that search than his latest foray into the dark and often sinister world of secret societies yet again gardiner finds himself on a journey across the world to uncover the ancient secrets of the world s most powerful men in one dramatic episode he finds himself driven out of berlin in a black mercedes by a secret organization that was believed to have disappeared after the second world war and eventually arrives in a modern nazi watering hole gardiner however survives this incredible journey and brings us the secrets of the order held sacred for so long gardiner delves into a world that is often hidden from our eyes and finds himself in situations that seem to mirror the fictional world of the da vinci code throughout secret societies gardiner uncovers an ancient secret society thought to have died out many years ago gets to the core of the secret societies belief systems explores the secret origins of freemasonry and the links to secret serpent cults investigates the secret hidden meaning of king arthur and robin hood examines the claimants to the name of illuminati and analyzes the history of the group in europe and america reveals the secret links within the vatican and the nazi party looks in depth at the white powdered gold theory supposedly kept secret by orders throughout time and radically re appraises it shows the link between the so called enlightenment experience and the control of our minds nobody in the genre involves themselves in the tale in the same way that gardiner does and here he shows that the search for ultimate truth can often be a terrifying one

independence seeing membership of certain organizations as being overtly influential on his research and understanding of the truths of mankind before retiring to dedicate his time to researching and writing philip was a marketing director and owner of a company in the uk part of this role included giving lectures on the art and history of marketing and propaganda to various organizations including certain government bodies and companies philip began his writing career with a book entitled proof does god exist published in 2002 and followed this up with his best selling the shining ones the world s most powerful secret society revealed which become a top seller in the uk

friendship with the judge came at a pivotal time in doc s life he quickly became the closest truest most generous brother doc ever knew they were a chemical reaction when they came together with a thought an idea or a plan to pull off another coup as the saying goes there s synergy creating energy that s stronger than the sum of its parts that was doc and the judge the judge was fire doc was water the judge was all reaction and doc was all control doc and the judge redefined business as usual they didn t just break on through to the other side as jim morrison urged in his

hypnotic sixties reverie they crashed and crashed on through they made tons of money for the grey suits that supported and funded them and a tidy pile of cash for themselves along the way though it was truly not about the money for them it was about being dudes they defined themselves daring the world to defy their ability to turn cultural trends into big money returns for the true believers who backed them they never compromised never shrank from a battle and never feared losing it all their business acumen and inherent credibility was inextricably linked to their integrity and musical and business authenticity doc watched over the judge for his own good and the judge knew and respected his faith the judge was a searing shooting star flashing blindingly across the night sky and defiantly demanding acceptance on his own terms the doc executed the business and kept it real they took on the world bought and sold it many times over laughing all the way to the bank they were inseparable during the decade of the 70 s butch and the kid many called them the judge always swore he ruled his court doc smiles at these memories suspecting that even now he s hanging out with god and is slipping a wickedly powerful toke or perhaps a st pauli s girl to the apostles when the big g isn t looking
