this volume celebrates the 50th anniversary of the society for medieval archaeology established in 1957 presenting reflections on the history development and future prospects of the discipline the papers are drawn from a series of conferences and workshops that took place in 2007 08 in addition to a number of contributions that were commissioned especially for the volume they range from personal commentaries on the history of the society and the growth of the subject see papers by david wilson and rosemary cramp to historiographical regional and thematic

overviews of major trends in the evolution and current practice of medieval archaeology all the publications are fully refereed with the aim of publishing at the highest academic level reports on sites of national and international importance and of encouraging the widest debate the series objectives are to cover the broadest chronological and geographical range and to assemble a series of volumes which reflect the changing intellectual and technical scope of the discipline

this collection of essays in honour of dr ian glover who for over fifty years has been one of southeast asia s most pioneering and leading archaeologists offers a complete and up to date account of the main issues and debates on the region s archaeology spanning the late pleistocene to the early historic period aimed at both the specialist and general reader alike this volume discusses issues ranging from food subsistence management technology transfer and long distance exchange to social complexity and political and ethical debates that are today an important aspect of southeast asian studies the contributors tackle topics such as hunter gatherers and early agriculture in east timor burial traditions in thailand and sarawak the development of early states in vietnam and sulawesi craft production and exchange stretching from india to the south china sea issues of post colonialism in laos and the creation of world heritage sites throughout the region contents part i overviews of ian c glover s contributions to the archaeology of island and mainland southeast asia part ii subsistence strategies hunter gatherers to early agriculture part iii social complexity and early states part iv craft production and exchange part v colonialism and archaeology as an outstanding scholar and a generous professor for over half a century dr ian glover has set much of the southeast asian archaeological research agenda his doctoral dissertation focused on the early prehistoric period of east timor while his later work involved excavations at ban don ta phet in central thailand and trà kiêu in vietnam having spent over a quarter of a century as a lecturer in the prehistory of south and southeast asia at the institute of archaeology university of london he has also played a pivotal role in the teaching and dissemination of knowledge on the region since retiring as emeritus reader in 1996 ian glover has continued to actively research and publish on a wide variety of topics on southeast asian archaeology selling points compilation of the most up to date research on southeast asian archaeology an overview for the general reader of the issues research methodologies and topics current in archaeology today and a core text for students of archaeology 120 b w illustrations

this book examines the japanese diaspora from the historical archaeology perspective drawing from archaeological data archival research and often oral history and explores current trends in

archaeological scholarship while also looking at new methodological and theoretical directions the chapters include research on pre war rural labor camps or villages in the us as well as research on western canada british columbia peru and the pacific islands hawaii and tinian incorporating work on understudied urban and cemetery sites one of the main themes explored in the book is patterns of cultural persistence and change whether couched in terms of maintenance of tradition americanization or the formation of dual identities other themes emerging from these chapters include consumption agency stylistic analysis community lifecycles social networks diaspora and transnationalism gender and sexuality also included are discussions of trauma racialization displacement labor heritage and community engagement some are presented as fully formed interpretive frameworks with substantial supporting data while others are works in progress or tentative attempts to push the boundaries of our field into innovative new territory this book is of interest to students and researchers in historical archaeology anthropology sociology of migration diaspora studies and historiography previously published in international journal of historical archaeology volume 25 issue 3 september 2021

introducing archaeology is the perfect text for introductory archaeology classes concise and well written it will appeal to instructors and students alike patricia hamlen william rainey harper college

the routledge handbook of global historical archaeology is a multi authored compendium of articles on specific topics of interest to today s historical archaeologists offering perspectives on the current state of research and collectively outlining future directions for the field the broad range of topics covered in this volume allows for specificity within individual chapters while building to a cumulative overview of the field of historical archaeology as it stands and where it could go next archaeological research is discussed in the context of current sociological concerns different approaches and techniques are assessed and potential advances are posited this is a comprehensive treatment of the sub discipline engaging key contemporary debates and providing a series of specially commissioned geographical overviews to complement the more theoretical explorations this book is designed to offer a starting point for students who may wish to pursue particular topics in more depth as well as for non archaeologists who have an interest in historical archaeology archaeologists historians preservationists and all scholars interested in the role historical archaeology plays in illuminating daily life during the past five centuries will find this volume engaging and enlightening

archaeological field schools notably in north america but also across the world are seminal student experiences they are also important vehicles by which research students and academic staff carry out fieldwork research often away from the environs of their home institution field schools are teaching and research projects but they also take place within a contemporary local context this is the first ever collection of studies examining the tensions between teaching research and local socio cultural conditions and explores the range of experiences associated with field schools it will be of interest to all those wishing to attend a field school whether as student or junior staff member and for novice and experienced field school directors who can gain fresh insights from others experiences

this new collection of papers from leading experts provides an overview of cutting edge research in old world zooarchaeology the research presented here spans various areas across europe western asia and north africa from the mediterranean to the atlantic several chapters focus on iberia but the eastern mediterranean and britain are also featured thematically the book covers many of the research areas where zooarchaeology can provide a significant contribution these include animal domestication bone modifications fishing fowling economic and social status as well as adaptation and improvement the investigation of these topics is carried out using a diversity of approaches thus making the book also a useful compendium of traditional as well as more recently developed methodological applications all contributions aim to present zooarchaeology as a discipline that studies animals to understand people and their richly diversified past histories this will be a valuable source of information not just for specialists but also for general archaeologists and potentially also historians palaeontologists and geographers who have an interest for the research themes discussed in the book the book is dedicated to simon davis who has been a genuine pioneer in the development of modern zooarchaeology it presents hugely stimulating case studies from the core areas where davis has worked in the course of his career

synthesizes what is known about the cultural human history of kansas from 10 000 b c to the nineteenth century this significant contribution to plains archaeology provides the reader with the first comprehensive overview of the subject in nearly fifty years
