this book focuses on the chaos that overtook england on the eve of the first world war dangerfield weaves together the three wild strands of the irish rebellion the rebellion in ulster the suffragette movement and the labour movement to produce a vital picture of the state of mind and the most pressing social problems in england at the time the country was preparing even then for its entrance into the twentieth century and total war dangerfield argues that between the death of edward vii and the first world war there was a considerable hiatus in english history he states that 1910 was a landmark year in english history in 1910 the english spirit flared up so that by the end of 1913 liberal england was reduced to ashes from these ashes a new england emerged in which the true prewar liberalism was supported by free trade a majority in parliament the ten commandments but the illusion of progress vanished that extravagant behavior of the postwar decade dangerfield notes had begun before the war the war hastened everything in politics in economics in behavior but it started nothing george dangerfield s wonderfully written 1935 book has been extraordinarily influential scarcely any important analyst of modern britain has failed to cite it and to make use of the understanding dangerfield provides this edition is timely since the year 2010 has seen a definitive resurrection of liberal power subsequent to the general election of july 2010 the government of the united kingdom has been in the hands of a conservative liberal democrat coalition the deputy prime minister is the leader of the liberal democratic party the direct successor of the old liberal party examined by dangerfield five liberal democrat members of parliament were appointed to the cabinet and there are liberal democrat ministers in all governmental departments after decades of absence from government power liberalism seems to be back with a vengeance

at the beginning of the twentieth century england s empire spanned the globe its economy was strong and its political system seemed immune to the ills that inflicted so many other

countries after a resounding electoral triumph in 1906 the liberals formed the government of the most powerful nation on earth yet within a few years the house of lords lost its absolute veto over legislation the home rule crisis brought ireland to the brink of civil war and led to an army mutiny the campaign for woman s suffrage created widespread civil disorder and discredited the legal and penal systems and an unprecedented wave of strikes swept the land this is a classic account first published in 1935 of the dramatic upheaval and political change that overwhelmed england in the period 1910 1914 few books of history retain their relevance and vitality after more than sixty years the strange death of liberal england is one of the most important books of the english past a prime example that history can be abiding literature as a portrait of england enmeshed in the turbulence of new movements which often led to violence against the pieties of liberal england until it was overwhelmed by the greatest violence of all world war i this extraordinary book has continued to exert a powerful influence on the way historians have observed early twentieth century england

it is often assumed that politicians are swept along by global forces and influences without the power or the desire to shape events by contrast this book is concerned with the way that cultural values individual moral sentiments and politicians interpretation of economic and other imperatives have helped to shape political values focusing on the nineteenth and twentieth centuries and containing contributions by a series of prominent scholars themes are developed through essays on recognisably important events and figures subjects include the policy ideas of w e gladstone woodrow wilson s support for war in 1916 and ramsay macdonald s role in the 1931 crisis other essays examine the way that keynesian ideas were understood and used across the party spectrum and beyond britain itself or reflect on the relationship between ideas values and politics this volume also celebrates and represents an approach to historical writing which has received little attention from scholars

a 2007 examination of the imperatives that have helped to shape political values

this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original
