the church in the house a return to simplicity the most rapid expansion of christianity in history took place in the first two hundred fifty years of the church s history until recently something has been happening for the past twenty five years in china that is growing even faster what is remarkable is that both of

an upper level introduction to the christian doctrine of the church this book is a rigorous comprehensive introduction to the doctrine of the church by taking the tack of walking readers through the internal logic of ecclesiology rather than simply offering a compendium of perspectives on each issue that arises the authors seek to teach and model thinking theologically with the grain of

scripture and ecclesial reflection about the church the chapters are peppered with two to three excurses per chapter which consider a particularly pertinent issue that arises from the doctrine's development e.g. the move from Jesus to the church schism and the rise of denominations sacramental mediation or contemporary concerns e.g. the question of other religions contemporary ecumenical questions the emerging church while the overall tone and content of the book articulate and invite discussion on the problematics of ecclesiology these excurses will provide ample opportunity to examine and where appropriate untangle ecclesiological knots continuum's guides for the perplexed are clear concise and accessible introductions to thinkers writers and subjects that students and readers can find especially challenging or indeed downright bewildering concentrating specifically on what it is that makes the subject difficult to grasp these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material

as the protestant reformers did so twenty first century christians also recognize the need to distinguish between the true and false church thus they find themselves looking closely at the modern church to determine whether it is a true and faithful church today's christians know that proper criteria are necessary to discern the true church the most common criteria wrote John Calvin are that the word of God is rightly preached and heard and that the sacraments are administered according to Christ's institution moreover Martin Luther said that suffering is a telltale sign of God's people while Anabaptist and reformed christians included discipline among the distinguishing marks of the church these standards take on particular poignancy today the global church continues to live under severe persecution and the American church characterized by a lack of discipline has been wounded by its own sins of chasing sex and power in this collection of essays first given at annual meetings of the Evangelical Theological Society the authors take time to reflect on the reformational marks of the church in order to help reform Christ's bride with contributions from Edward W. Klink III Duane Litfin J. Stephen Yuille J. V. Fesko Keith D. Stanglin Greg Cochran Jeremy M. Kimble Guy Waters Justin L. Mclendon

debate about church order has gone on for centuries within christianity and an end is nowhere in sight perhaps that is good since the debate shows the weaknesses of many ideas that need correction corporate decision making examines church order from a careful exegetical perspective with particular attention to the social world of the new testament while most works about church government address structure and qualities of leadership brown deals with the interaction of the people of the church both with their leaders and with one another in setting policy in brief though all believers in the young church of the new testament revered christ and his word as authoritative not all church decisions were top down from earthly leaders on the contrary many were from the bottom up this should come as no surprise to those familiar with jesus admonition in the gospels you have one teacher and you are all brothers

during the first decade of the 21st century the catholic church in the developed world has faced a decline in its moral authority increasing accusations of irrelevance to a secular age and a steep and steady decline in commitment among successive generations from the 1960s on despite this catholic schools have multiplied and grown in popularity and educational achievement the book sets out a programme for the contribution of catholic schools to the future of the church covering such topics as the religious education curriculum in its cognitive and affective aspects the sacramental life of the school selection of staff the issue of staff and catholic witness and many other topics engebretson argues that catholic schools are a powerful key to the future of the church and shows how within their diversity catholic schools can be ecclesial communities which have at their heart the building up of the church

witness lee speaks of the church in the practical expression of the church not only from the viewpoint of god s eternal purpose which is the church triumphant and universal but also from the viewpoint of the believers experience and enjoyment of the riches of christ which produces a local expression of the church an expression that displays the oneness of the body of christ and brings in god s commanded blessing psalm 133
