this book details patterns of language use that can be found in the writing of adult immigrant learners of norwegian as a second language l2 each study draws its data from a single corpus of texts written for a proficiency test of l2 norwegian by learners representing 10 different first language l1 backgrounds the participants of the study are immigrants to norway and the book deals with the varying levels and types of language difficulties faced by such learners from differing backgrounds the studies examine the learners use of norwegian in relation to the morphological syntactic lexical semantic and pragmatic patterns they produce in their essays nearly all the studies in the book

rely on analytical methods specifically designed to isolate the effects of the learners I1s on their use of I2 norwegian and every chapter highlights patterns that distinguish different I1 groups from one another

traditional language learning methods often follow a one size fits all approach which can make language learning appear more challenging than it needs to be the speak up method of language learning developed over forty five years of extensive research and real world testing offers a unique and effective solution to help both educators and students achieve conversational fluency in any language as rapidly as possible within the pages of this book you will gain insights into the specific criteria to look for and what to avoid when selecting the right tools for mastering a new language additionally educators will learn how to break free from conventional teaching methods and empower students by encouraging them to learn from each other thereby creating a more efficient and engaging learning environment

how to learn a new language in as little as a few months and have a boatload of fun doing it let me make a prediction i predict that many many hundreds of people who will read this description will close this page in a few seconds learn a new language in a few months are you out of your mind they ll say it s just too good to be true and they will go back to their old language learning methods you know which methods toiling away at mind numbing grammar exercises learning words nobody uses and most importantly never actually using your skills to communicate with another person if you re still with me i expect you to be different you think there must be something better after all how could people master more than one foreign language in their lives if it usually takes a regular person several years just to learn the basics the answer is simple in one way or another they follow the methods i share in how to learn any language in a few months while enjoying yourself they not only learn up to ten times faster than other people they also have a lot of fun while doing it how to learn any language in a few months while enjoying yourself is for you if you want to learn without this one thing you ll never learn a new language in just a few months learn what it is and how to apply it to your everyday life to practice your skills while doing your daily activities a completely free way to get native speakers to proofread your writings and even explain to you all of your mistakes this one site alone can dramatically improve your writing skills an extremely easy way to find a native speaker willing to help you learn her mother language it s almost like having a private tutor the proper way to improve your listening skills while watching movies most people learning a foreign language do it the wrong way and it does nothing to improve their abilities how to achieve more with less when learning languages you don t have to spend hours and hours cramming every single word and grammar rule in fact it works to your detriment learn what to do instead 9 common mistakes to avoid when learning languages reading this chapter alone can save you years of ineffective studies especially mistake 3 so common among language learners a 5 step process to improve your reading skills you can make your learning process much more enjoyable and effective by choosing the right things to read learn what these things are a fun idea to learn how to write the way native speakers do you too can learn the slang and phrases only native speakers use and know the language better than many

academic professors how to dramatically improve your language skills when traveling while it isn't necessary to go abroad to learn a language it's a powerful way to cram a lot of learning into just a few days 5 common challenges of language learners and how to deal with them learn how to get over the fear of communicating with native speakers discover how to find more time to learn and practice your skills it's easier than you think read three tips on how to deal with discouragement if you're ready to supercharge your progress and become fluent in a foreign language in as little as a few months scroll up and click the buy button why kill yourself doing things the old non effective way if you could make the process much easier and enjoy it more too p.s as a thank you gift for buying my book you'll get access to a resource list with my favorite language learning sites

the complete guide to the theory and practice of materials development for language learning provides undergraduate and graduate level students in applied linguistics and tesol researchers materials developers and teachers with everything they need to know about the latest theory and practice of language learning materials development for all media the past two decades have seen historic change in the field of language learning materials development the four main drivers of that change include a shift in emphasis from materials for language teaching to language learning evidenced based development the huge increase in digital delivery technologies and the wedding of materials developed for the learning of english with those for other second or foreign languages timely authoritative and global in scope this text represents the ideal resource for all those studying and working in the field of language learning

this book presents research and developments in the virtual augmented technology and mixed reality used in language learning and teaching it provides the readers with a comprehensive overview of contextual language learning with the support of immersive technology from theoretical foundations methodological issues the features of virtual and augmented reality and educational practices of language learning to the future of immersive technology for and research on language learning during the past two decades abundant research on different realities has recognized the potential of language learning in virtual augmented and mixed reality environments wang et al 2020 lin lan 2015 given insufficient studies of chinese learning in immersive contexts reported in existing literature this book includes several excellent studies about using immersive technologies for chinese learning in addition to other foreign language learning such as english as a foreign language efl since learning chinese has grown significantly as a global trend the authors vitally consolidate and synthesize various theoretical foundations visions and recent research and practices in the context of chinese teaching from broader and more diverse perspectives on the other hand the chapters about efl learning also shed light on the research on contextual language learning thus the chapters included in this book will likely provide readers with a deep and extensive understanding of the potential of the smart combination of immersive technologies and language learning more issues for future research will undoubtedly be inspired by reading the chapters in this book

this landmark volume offers a collection of conceptual papers and data based research studies that investigate the dynamics of language learning motivation from a complex dynamic systems perspective the chapters seek to answer the question of how we can understand motivation if we perceive it as a continuously changing and evolving entity rather than a fixed learner trait

identity and language learning draws on a longitudinal case study of immigrant women in canada to develop new ideas about identity investment and imagined communities in the field of language learning and teaching bonny norton demonstrates that a poststructuralist conception of identity as multiple a site of struggle and subject to change across time and place is highly productive for understanding language learning her sociological construct of investment is an important complement to psychological theories of motivation the implications for teaching and teacher education are profound now including a new comprehensive introduction as well as an afterword by claire kramsch this second edition addresses the following central questions under what conditions do language learners speak listen read and write how are relations of power implicated in the negotiation of identity how can teachers address the investments and imagined identities of learners the book integrates research theory and classroom practice and is essential reading for students teachers and researchers in the fields of language learning and teaching tesol applied linguistics and literacy
