current educational reforms have given rise to various types of educational Taylorism which encourage the creation of

efficiency models in pursuit of a unified way to teach in history education curricula this has been introduced through scripted textbook based programs such as teacher curriculum institute s history alive and completely online curricula they include the jargon of authentic methods such as primary sources cooperative learning differentiated instruction and access to technology yet the craft of teaching is removed and an experience that should be marked by discovery and reflection is replaced with comparatively empty processes this volume provides systematic models and examples of ways that history teachers can compete with and effectively halt this transformation the alternatives the authors present are based on collaborative models that address the art of teaching for pre service and practicing secondary history teachers as well as collegiate history educators relying on original research and a maturing body of secondary literature on historical thinking this book illuminates how collaboration can create real historical learning

world history has expanded dramatically in recent years primarily as a teaching field and increasingly as a research field growing numbers of teachers and ph ds in history are required to teach the subject they must be current on topics from human evolution to industrial development in song dynasty china to today s disease patterns and then link these disparate topics into a coherent course numerous textbooks in print and in preparation summarize the field of world history at an introductory level but good teaching also requires advanced training for teachers and access to a stream of new research from scholars trained as world historians in this book patrick manning provides the first comprehensive overview of the academic field of world history he reviews patterns of research and debate and proposes guidelines for study by teachers and by researchers in world history
