in encyclopedic format this book presents creation myths beliefs of ancient civilizations around the world including greeks romans and others

appropriate for students at several levels of sophistication this text takes an interdisciplinary approach to exploring science and religion it may be used effectively with students who have no prior course work in philosophy and religious studies as well as by more advanced students networking sections integrate concepts and compare views on common issues emphasis is placed on contemporary material in the sciences yet analysis is presented from both the traditional and contemporary perspectives in philosophy and religion parts are arranged according to specific natural sciences physics biology and ecology to assist readers in orienting themselves according to their interests

in the last two decades a new form of religiously motivated social action and a virtually new field of academic study each based in recognition of the connections between religion and humanity's treatment of the environment have developed interactions between religion and environmental concern have been manifest in the explosive growth of ecotheological writings institutional commitment by organized religions and environmental activism explicitly oriented to religious ideals clergy throughout the world in virtually every denomination have received word from leaders of their religion that the environment no less than sexuality poverty or war and peace is now a basic and compelling religious matter out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of god the sacred the earth and human beings theologians from every religious tradition along with dozens of non denominational spiritual writers have confronted world religions past attitudes towards nature in the realm of institutional commitment public statements and actions by organized religions have grown dramatically in the context of political action throughout the u s and the world religiously oriented groups take part in environmentally oriented political action from lobbying and consciousness raising to activist demonstrations and civil disobedience this collection serves as a comprehensive introduction overview and in depth account of these exciting new developments the four volumes cover virtually every aspect of the field from theological change and institutional commitment to innovation in liturgy from new ecumenical connections among different religions and between religion science and environmental movements from religious participation in environmental politics to an account of the global social and political contexts in which religious environmentalism has unfolded

a very distinctive and important new option for christian theology mcfague proposes in a clear and challenging way a theological program based on what she calls the organic model for conceiving god

today many public schools especially rural and inner city areas are so fraught with violence so impersonal and so poorly funded that they drive students away rather than inspire them to learn most people do not realize that the school system they knew when they were growing up is now in the process of being supplanted with alternative approaches to education nor do they understand the grave consequences for their children who face the demise of america's one system of public education for all author elaine johnson examines the state of education in the twenty first century using science rather than business as a more reliable and positive guide for education the application of scientific principles of interrelatedness self organization and differentiation to leadership and teaching transforms schools into places that improve school performance chapters describe practical approaches to teaching math science and foreign languages the dismantling of public education analyzes the influence on education of the business model calling for growth competition measurable targets accountability this book also discusses the effects on young people of immense high schools charter schools and statewide standardized achievement tests
