owen was a renowned theologian in his day and this work is a piece of theological brilliance in the reformed and protestant tradition the death of christ had a wide range of implications on the fate of humanity and the cause of redemption that christ came to give to us all this work goes over all the

arguments that have been set up against the reality of christ s death and owen brilliantly rebukes these arguments and settles it all

the reason this book exists is to give the christian church a basic overview of covenant theology that 1 follows the bible 2 follows the 1647 westminster confession and 3 is easy to work through there has not been a book like this that follows the bible westminsterian theology or the magnum opus of herman witsius which is a watershed work on covenant theology called the economy of the covenants between god and man this work follows the outline of witsius and places these theologically important concepts into an easy to understand format if nothing else has been read on covenant theology this work would be a helpful volume to teach the serious bible student the fundamentals of the christian faith in the same way that the early church augustinian christians reformers and puritans taught covenant theology the author has also written a simple overview of covenant theology which could be a helpful resource and precursor to this volume for more reformed and puritan books visit the puritan shop at puritanshop.com
