articulates a true biblical theology of technology weaving extensive biblical texts together with the history and philosophy behind the major technological innovations of history

technologies are deeply embedded in the modern west what would our lives be like without asphalt glass gasoline electricity window screens or indoor plumbing we naturally praise technology when it is useful and bemoan it when it is not but there is much more to technology than the usefulness of this or that artifact unfortunately we tend not to consider the inherently social and moral character of technology as a result we are prone to overlook the effects of technology on our spiritual lives this book investigates the role technology plays in helping and hampering our christian practice and witness

our ancestors saw the material world as alive and they often personified nature today we claim to be realists but in reality we are not paying attention to the symbols and myths hidden in technology beneath much of our talk about computers and the internet claims william a stahl is an unacknowledged mysticism an implicit religion by not acknowledging this mysticism we have become critically short of ethical and intellectual resources with which to understand and confront changes brought on by technology

look to the skies a study of god s technology one of the remarks i ve often heard is that man inspired and wrote the holy bible i ve had to chuckle at that remark and say this is the twenty first century a time of expanded intelligence and technology and a time when man without the holy spirit cannot understand god s true word with that said how could man at any time period have ever been intelligent enough to write about something he could not possibly understand and then have it come to pass hundreds and in some cases thousands of years in the future who do you think has the most advanced technology man satan or god because nothing is done without technology and this truth determines who s in charge as you are reading this book you may learn who god is where god is and some of the colossal technology he has all of this information is in god s holy scriptures but he knew until man evolved into his own computer technology that he could not even begin to understand these things when i was a teen in the early sixties i would hear people in conversation talking about god and his holy scriptures and i would ask different people questions about god and when they would answer i found they had their own individual versions the preachers in those days were still teaching to live by the ten commandments which is to live by the law and not by grace i could tell they had faith and new enough truth to be born again but the time had not yet come for his dispensing of the spirit of information and knowledge that joel speaks about in acts 2 17 18 17 and it shall come to pass in the last days saith god i will pour out of my spirit upon all flesh and your sons and your daughters shall prophesy and your young men shall see visions and your old men shall dream dreams 18 and on my servants and on my handmaidens i will pour out in those days of my spirit and they shall prophesy i believe we are in this phenomenal time period just before the coming of jesus in the clouds but not to earth for this is the first resurrection the rapture not the second coming and not the second resurrection and not the end of days the timing is right for this event to happen for example retroactive to one hundred years ago this event did not and could not have happened according to god s holy word because we did not have this apocalyptic technology at that time which is necessary to fulfill his prophetic word the father the son and the holy spirit are the only ones that knew what man would do in the future and how self destructive he would become matthew 24 21 22 21

for then shall be great tribulation such as was not since the beginning of the world to this time no nor ever shall be 22 and except those days should be shortened there should no flesh be saved but for the elect s sake those days shall be shortened there is a study and research section in back of the book that consists of 75 titled pages my wish is that you will enjoy studying and learning from my research and information in this book
