virgil s epic poem describing the fall of troy in english blank verse by robert fitzgerald

the dramatic events of the aeneid have been adapted into dramatic form that is contemporary blank verse by award winning poet h r coursen plays drama

this book demonstrates the ways in which virgil s are poems that heaney lived with long and dreamily especially the descent into the underworld in aeneid vi it shows that in his original english poems as well as his translations from latin heaney conjures and transforms familiar virgilian motifs the rhythm pace and musicality of virgil s hexameters can be heard in heaney s pastoral eclogues and sonnet sequences and virgil s life and times as well as his poetry contribute to the shaping of heaney s prose poetics in dialogue with virgil as well as other classical and modern poets heaney develops his notion of the redress of poetry the counterbalance

that poetry can offer against historical tragedy suffering and loss the book explores heaney s intensely productive thirty year dialogue with virgil beginning with his translation of the golden bough in the 1980s and extending through several major volumes including seeing things the midnight verdict electric light district and circle the riverbank field human chain and the posthumously published translation of aeneid book vi

this is the first volume to offer a critical overview of the long and complicated history of translations of virgil from the early modern period to the present day transcending traditional studies of single translations or particular national traditions in isolation to offer an insightful comparative perspective the twenty nine essays in the collection cover numerous european languages from english french and german to greek irish italian norwegian slovenian and spanish but also look well beyond europe to include discussion of brazilian chinese esperanto russian and turkish translations of virgil while the opening two contributions lay down a broad theoretical and comparative framework the majority conduct comparisons within a particular language and combine detailed case studies with in depth contextualization and theoretical background showing how the translations discussed are embedded in their own cultures and historical moments the final two essays are written from the perspective of contemporary translators closing out the volume with a profound assessment not only of the influence exerted by the major roman poet on later literature but also why translation of a canonical author such as virgil matters not only as a national and transnational cultural phenomenon but as a personal engagement with a literature of enduring power and relevance

this element shows classical translation as inherently creative in practice with new approaches shaping dialogue and genres

this comparative study investigates the epic lineage that can be traced back from derek walcott s omeros and ezra pound s cantos through dante s divina commedia to the epic poems of virgil and homer and identifies and discusses in detail a number of recurrent key topoi a fresh definition of the concept of genre is worked out and presented based on readings of homer the study reads pound s and walcott s poetics in the light of roman jakobson s notions of metonymy and metaphor placing their long poems at the respective opposite ends of their language poles although there has already been an intermittent critical focus on the classical and dantean antecedents of walcott s poetry the present study is the first to bring together the whole range of epic intertextualities underlying omeros and the first to read this caribbean masterpiece in the context of pound s achievement book jacket

a selective bibliography on homer s iliad and odyssey and virgil s aeneid directed toward the first time reader of these works in translation especially high school and general college students looking for sources for course papers and projects
