bracingly intelligent lucid balanced witty too a scrupulous and charming look at our modern understanding of genes and experience oliver sacks armed with extraordinary new discoveries about our genes acclaimed science writer matt ridley turns his attention to the nature versus nurture debate in a thoughtful book about the roots of human behavior ridley recounts the hundred years war between the partisans of nature and nurture to explain how this paradoxical creature the human being can be simultaneously free willed and motivated by instinct and culture with the decoding of the human genome we now know that genes not only

predetermine the broad structure of the brain they also absorb formative experiences react to social cues and even run memory they are consequences as well as causes of the will

in eden s garden rethinking sin and evil in an era of scientific promise richard coleman examines the notion of sin in a contemporary world that values scientific and nonreligious modes of thought regarding human behavior this work is not an anti science polemic but rather an argument to show how sin and evil can make sense to the nonreligious mind and how it is valuable to make sense of such phenomena examining themes in religion philosophy and theology it is ideal for use in the numerous courses which move across these disciplines

two theologians ted grimsrud and mark thiessen nation argue both sides of an issue that is vexing the postmodern church homosexuality this book develops the give and take over the differences between the two scholars but it also offers areas of agreement and consensus

book review index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests the up to date coverage wide scope and inclusion of citations for both newly published and older materials make book review index an exceptionally useful reference tool more than 600 publications are indexed including journals and national general interest publications and newspapers book review index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year

every once in a while we have to reconsider the perennial questions concerning human nature what are the special human behaviours social practices and psychological structures that makes us particularly human the field of evolution psychology and cognitive science is the most expanding inter disciplinary area for the time being uniting different sciences under the same evolutionary paradigm and keeping them occupied by the same eternal questions stated above relevant data and theoretical considerations are piling up but an overview is needed to facilitate this a large inter disciplinary conference entitled human mind human kind was held at university of aarhus denmark more than 100 experts presented their latest research and after careful selection 20 of these contributions have found their way to this volume the studies fall into three well defined sections evolution and cognition comparative and developmental perspectives human sociality morality

religiosity human sexuality and mating strategies specifying the differences between our own species and the rest of the animal world always provokes debate but these demarcations simply have to be drawn once and again they focus attention and stimulate research exactly because they provoke and challenge other researchers to take up the glove and prove us wrong

takes readers on a tour of the african savannah documenting the region s storied animals lions elephants giraffes cheetahs baboons and wildebeests as well as the natural beauty of this unique area of the planet

a review published in the interests of mining industrial scientific and economic progress varies slightly
