this book provides an analysis of the english american french and russian revolutions as they exhibit universally applicable patterns of revolutionary thought and action

this study aims to update a classic of comparative revolutionary analysis crane brinton s 1938 study the anatomy of revolution it invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the english revolution of 1640 60 the french revolution of 1789 99 and the russian revolution of 1917 29 this book intends to do what no other comparative analysis of revolutionary change has yet adequately done it not only progresses beyond marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major european revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture

the paper looks at revolution as a special case of social change as a part of a developmental process in particular three countries in the middle 19th century germany france and great britain are compared and contrasted to determine whether or not changing relationships between social status groupings can become the basis for predicting revolutionary outcomes six classes are identified aristocracy bourgeoisie petite bourgeoisie artisans industrial workers and peasantry france and germany offer examples of revolutionary development which resulted in failures in their own separate ways britain offers an example of a country with similar cultural preconditions but which had no complete revolutionary development comparisons of class structure and interaction in these cases disclose important relationships in the development of revolutionary processes key roles are played by 1 the petite bourgeoisie and artisans who can act as determining swing groups 2 a viable and powerful aristocracy who can determine the ultimate outcome of revolutions particularly as other groups relate to or align with them 3 the relationship between the aristocracy and the peasantry especially as this determines the attitude of the peasantry toward revolution and 4 all classes as internecine conflict and antagonism may redirect and diffuse hostilities schematic depictions are provided for these types of relationships author

this book examines 1 the neglected but decisive role played by guerrillas in the carolinas in 1780 and 1781 which led to the disastrous retreat of cornwallis into yorktown 2 the 1793 uprisings in western france against the revolutionary regime whose

conduct foreshadowed nazi policies during world war ii 3 the french occupation of spain from 1808 to 1814 from which the name guerrilla derives and where the napoleonic empire suffered its most fatal wound and 4 guerrilla campaigns in the american civil war explaining why lee s surrender in 1865 failed to unleash the massive guerrilla outbreak feared by lincoln and grant the concluding section compares the experiences of the french in spain to those of the soviets in afghanistan and the british in the carolinas to the americans in vietnam
