william r biers wrote the archaeology of greece to introduce students teachers and lay readers to the delights of exploring the world of ancient greece the great popularity of the first edition testifies to his success in this revised edition he has emended and updated the text selectively provided a glossary and augmented the illustrations

this fully revised new edition of the greeks is a concise but wide ranging introduction to the culture of ancient greece providing a comprehensive survey that covers all the key elements of ancient greek civilisation from the age of homer to the hellenistic period it opens with an overview of ancient

historical sources and their authors and perspectives before delving into early history legends and excavations and the famed age of classical greece chapters follow on politics religion daily life literature philosophy and art and architecture with a concluding chapter on the greek world following the death of alexander the great and during the roman era this new edition features greater discussion of underrepresented groups especially women and slaves a chapter on ancient politics that provides a comparison of an ancient aristocracy democracy and monarchy in sparta athens and macedon new and revised images all now with detailed captions to merge the artefacts and texts more fully and bring the narrative to life for every reader and new translations of all ancient passages revised for accuracy and clarity clearly written with generous references to original source material the greeks places ancient greek culture firmly in its political social and historical context the fourth edition of the greeks remains an invaluable introduction for all students of classics and an indispensable guide for students of other disciplines who require grounding in ancient greek civilisation and history

this fully revised new edition of the greeks is a concise but wide ranging introduction to the culture of ancient greece providing a comprehensive survey that covers all the key elements of ancient greek civilization from the age of homer to the hellenistic period it opens with an overview of ancient historical sources and their authors and perspectives before delving into early history legends and excavations and the famed age of classical greece chapters follow on politics religion daily life literature philosophy and art and architecture with a concluding chapter on the greek world following the death of alexander the great and during the roman era this new edition features greater discussion of underrepresented groups especially women and slaves a chapter on ancient politics that provides a comparison of an ancient aristocracy democracy and monarchy in sparta athens and macedon new and revised images all now with detailed captions to merge the artifacts and texts more fully and bring the narrative to life for every reader new translations of all ancient passages revised for accuracy and clarity clearly written with generous references to original source material the greeks places ancient greek culture firmly in its political social and historical context the fourth edition of the greeks remains an invaluable introduction for all students of classics and an indispensable guide for students of other disciplines who require grounding in ancient greek civilization and history

from the publisher the greeks has provided a concise yet wide ranging introduction to the culture of ancient greece since its first publication this new and expanded edition of the best selling volume covers literature drama philosophy art and architecture and provides political social and historical context it includes new material on religion as well as more illustration maps and a new glossary

this accessible introduction surveys the land and peoples who gave us the labyrinth the acropolis the iliad and odyssey herodotus and thucydides sappho and sophocles aphrodite and aristotle and so much more using the full range of resources of art history archaeology and philology this book details the familiar mythic heroes and heroines famous philosophers and poets as well as classical art and architecture and introduces the less well known aspects of ancient greece notably the civilizations of the bronze and dark ages and even the earliest form of written greek linear b in addition stephanie lynn budin offers a full history of how the study of classical greece has evolved from ancient times

through the middle ages and the renaissance to the present day she covers ongoing questions and new directions in greek studies including minoan religion the role of women in early greek cultures the historical accuracy of homer and herodotus and the role of greece amongst its non greek neighbors the ancient greeks includes a rich collection of illustrations drawings maps and photographs including detailed renderings of knossos the evolution of greek sculpture and pottery and even a section on ancient weaponry the result is a superb companion for both newcomers and long time hellenophiles revealing not only what we know about ancient greece but how we know it and how these cultures continue to influence us

this book distils centuries of history into a concise yet rich introduction to the entire greek world starting with its rediscovery in modern times the author traces the development of ancient greece from its earliest bronze age origins to the roman conquest encompassing the influence of neighboring civilizations she explores topics such as writing and art government and philosophy warfare and hunting trade and colonization gods and heroes entertainments and domestic life drawing on the world famous collections of the british museum she shows how the ancient greeks were able to play such a major role in the subsequent development of western culture book jacket

remains to be seen is a fascinating series which looks at the past through the archaeological evidence that remains today ancient greece looks at who the greeks were and their world of warships great leaders cities and poets it goes on to discuss their achievements in writing maths science and philosophy art and architecture music and theatre as well as their religions and festivals finally we see the history of greece under the romans and how the past is discovered today there are fact boxes which highlight key facts and the text is supported by a wonderful array of photographs and maps ancient greece also features a time line a glossary and a full index

this excellent history of ancient greece reveals how day to day life was in the capital city of athens the greeks artistic and cultural achievements plus its military triumphs in her well researched overview of one of the greatest civilizations of antiquity dorothy mills discusses the different facets of greek society together with the defining historical events and attainments the famous pantheon of gods and the establishment of the olympic games are accompanied by accounts of the colonies in southern italy and asia minor ideas of governance including its famous system of democracy are described alongside the civilization s martial prowess the military of the greeks introduced dedicated divisions of cavalry and the famous hoplites and advanced siege warfare great heroes and intellectuals are discussed examples include aristotle a pioneer of legal and ethical philosophy and alexander the great a military commander who led his forces as far east as india finally mills discusses the scientific legacy left by thinkers such as archimedes and the towering influence greece and its ideas had on civilizations which followed this edition of mills history includes a variety of illustrations and photographs these showcase the architectural and artistic styles of ancient greece with iconic buildings such as the acropolis and the great theatre of epidauros featured

the contribution of the ancient greeks to modern western culture is incalculable in the worlds of art

architecture myth literature and philosophy the world we live in would be unrecognizably different without the formative influence of ancient greek models ancient greek civilization was defined by the city in greek the polis from which we derive politics it is above all this feature of greek civilization that has formed its most enduring legacy spawning such key terms as aristocracy oligarchy tyranny and last but by no means least democracy this stimulating very short introduction to ancient greece takes the polis as its starting point paul cartledge uses the history of eleven major greek cities to illuminate the most important and informative themes in ancient greek history from the first documented use of the greek language around 1400 bce through the glories of the classical and hellenistic periods to the foundation of the byzantine empire in around ce 330 covering everything from politics trade and travel to slavery gender religion and philosophy it provides the ideal concise introduction to the history and culture of this remarkable civilization that helped give birth to the world as we know it about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

now in its third edition introduction to greek law remains the sole comprehensive summary of greek law in a language other than greek in twenty insightful chapters written by some of the best authorities on greek law in greece and in the united states this book provides both analysis and commentary on the various aspects of theory and practice in contemporary greek law concentrating on comparative law aspects and on differences with corresponding concepts in the anglo american system and in other european systems the third edition covers all these areas of substantive law and legal practice and more the greek constitution and its relation to international law and the european union structure and distribution of state powers effect of ec directives regulatory authorities and administrative action judicial organization intellectual property corporations and partnerships labor relations arbitration commercial and maritime law local government legal persons contracts and torts marriage divorce and filiation succession bankruptcy choice of law and recognition and enforcement of foreign judgments taxation investment incentives and criminal law and procedure of special value is the attention to recent revisions of civil commercial and procedural laws particularly in the fields of conflict of laws procedure property obligations succession and family law bibliographies accompany each chapter and useful appendices include comprehensive lists of statutes cases and international conventions introduction to greek law has been well received internationally in its earlier editions and the third edition with its thorough updates is sure to be equally welcomed by practitioners and academics alike

greek and roman jewellery 1961 covers jewellery from the classical lands from the early bronze age to the late roman period almost 3 000 years of continuous development and innovation in the craft a full account of the technical methods of making jewellery is followed by a description period by period of the jewellery itself

thematic unit about the contributions greek civilization has made to the world students experience aspects of the culture and study mythology
