journey back to the 14th century with echoes of the plague the unforgiving tale of the black death crafted with expertise by the chatstick team this book takes you into the

heart of one of the deadliest pandemics in human history unravel the mystery of the plague's origins witness the devastation it wrought on societies and discover its enduring impact on our world today from society's desperate fight for survival to the profound transformations it triggered the black death's tale is both heart wrenching and enlightening the book illuminates the echo of the plague in our modern society culture and medical practices culminating in a critical evaluation of lessons we can draw for current and future pandemics immerse yourself in a vivid historical narrative that will leave you reflecting on our past present and future don't miss out on this illuminating read

a fascinating work of detective history the black death traces the causes and far reaching consequences of this infamous outbreak of plague that spread across the continent of europe from 1347 to 1351 drawing on sources as diverse as monastic manuscripts and dendrochronological studies which measure growth rings in trees historian robert s gottfried demonstrates how a bacillus transmitted by rat fleas brought on an ecological reign of terror killing one european in three wiping out entire villages and towns and rocking the foundation of medieval society and civilization

the disordered body presents a fascinating look at how three epidemics of the medieval and early renaissance period in western europe shaped and altered conceptions of the human body in ways that continue today authors suzanne e hatty and james hatty show the ways in which concepts of the disordered body relate to constructions of disease in so doing they establish a historical link between the discourses of the disordered body and the constructs of gender the ideas of embodiment contagion and social space are placed in historical context and the authors argue that our current anxieties about bodies and places have important historical precedents they show how the cultural practices of embodied social interaction have been shaped by disease especially epidemics

new to the problems in european civilization series this is the only text to contain secondary sources on the black death the essays organized by cultural municipal and medical reaction to the disease are preceded by helpful introductions to provide students with a context for each source the text features the latest in scholarship and a flexible format that allows instructors to assign those essays and sections that best

suit course needs
