this monograph is the first major study of a pervasive but overlooked figure in postwar american fiction the blocked writer it argues that the impacts of this character are as diverse as its many variants in postwar postmodernist and contemporary literature with chapters analyzing writer s block in works by authors such as philip roth lucy ives ben lerner and salvador plascencia it reveals how authors have used the figure of the blocked writer to critique modern forces that might constrain a writer s creativity including rigid dogma in mfa programs and ethnic stereotyping in the publishing industry in doing so the book offers fresh perspectives on autofiction metafiction and novelistic engagements with literary institutions and culture in addition the book also demonstrates how representations of writer s block might offer practical lessons such as what it takes to overcome perfectionism how to break one s reliance on inspiration and how to transform one s frustrations into rich material for analysis or adaptation in order to reveal the critical and practical insights embedded in representations of writer s block this book utilizes methodologies from both english and writing studies challenging the tendency in academia today to separate the study of literature from the study of writing by reading fiction through a writing studies lens the book argues english gains a sharp perspective on an essential but overlooked literary archetype and by considering the lessons in composition found in representations of blocked writers it demonstrates how literary texts might provide writing studies with a valuable examples for understanding how writing practices blocks and breakthroughs work provided by publisher
