some say that telling the story of the holocaust is impossible yet artists have told the story thousands of times since the end of world war ii in novels dramas paintings music sculpture and film over the past seven decades hundreds of documentaries narrative shorts and features and television miniseries have confronted the horrors of the past creating an easily recognized iconography of persecution and genocide

while it can be argued that film and television have a tendency to trivialize using the artifacts of popular culture film and literature artists keep the past alive ensuring that victims are not forgotten and the tragedy of the holocaust is not repeated the historical dictionary of holocaust cinema examines the history of how the holocaust is presented in film including documentaries feature films and television productions it contains a chronology of events needed to give the films and their reception a historical context an introductory essay a bibliography a filmography of more than 600 titles and over 100 cross referenced dictionary entries on films directors and historical figures foreign language films and experimental films are included as well as canonical films this book is a must for anyone interested in the scope of films on the holocaust and also for scholars interested in investigating ideas for future research

the holocaust has been the focus of countless films in the united states great britain and europe and its treatment over the years has been the subject of considerable controversy when finally permitted to portray the atrocities filmmakers struggled with issues of fidelity to historical fact depictions of graphic violence and how to approach the complexities of the human condition on all sides of this horrific event in hollywood and the holocaust henry gonshak explores portrayals of the holocaust from the world war ii era to the present in chapters devoted to films ranging from the great dictator to inglouriousbasterds this volume looks at how these films have shaped perceptions of the shoah the author also questions if hollywood given its commercialism is capable of conveying the holocaust in ways that do justice to its historical trauma through a careful consideration of over twenty five films across genres including life is beautiful cabaret the reader the boys from brazil and schindler s list this book provides an important look at the social political and cultural contexts in which these movies were produced by also engaging with the critical responses to these films and their role in the public s ongoing fascination with the holocaust this book suggests that viewers take a closer look at how such films depict this dark period in world history hollywood and the

holocaust will be of interest to cultural critics historians and anyone interested in the cinema s ability to render these tragic events on screen

nearly eighty years have passed since the holocaust there have been hundreds of memoirs histories and novels written about it yet many fear that this important event may fall into oblivion as holocaust survivors pass away their legacy of suffering tenacity and courage could be forgotten it is up to each generation to commemorate the victims preserve their life stories and hopefully help prevent such catastrophes these were my main motivations in writing this book holocaust memories which includes reviews of memoirs histories biographies novels and films about the holocaust it was difficult to choose among the multitude of books on the subject that deserve our attention i made my selections based partly on the works that are considered to be the most important on the subject partly on wishing to offer some historical

background about the holocaust in different countries and regions that were occupied by or allied themselves with nazi germany and partly on my personal preferences interests and knowledge the nazis targeted european jews as their main victims so my book focuses primarily on them at the same time since the nazis also targeted other groups they considered dangerous and inferior i also review books about the sufferings of the gypsies the poles and other groups that fell victim to the nazi regimes in the last part i review books that discuss other genocides and crimes against humanity including the stalinist mass purges the cambodian massacres by the pol pot regime and the rwandan genocide i want to emphasize that history can indeed repeat itself even if in different forms and contexts just as the jews of europe were not the only targets of genocide fascist regimes were not its only perpetrators
