A literary genre that pervades 21st-century popular culture, science fiction creates mythologies that make statements about humanity's place in the universe and embody an intersection of science, religion, and philosophy. This book considers the significance of this confluence through an examination of myths in the writings of H. G. Wells, Arthur C. Clarke, Philip K. Dick, and Frank Herbert, presenting fresh insights into their works. The author brings to light the tendency of science-fiction narratives to reaffirm spiritual myths.

On the Hindu deity Jagannath, Puri, District Orissa

The universal computer mind OMNIUS has retreated to its last stronghold where it plots a devastating new strategy that could undo the victories of the Butlerian Jihad. The surviving Titans are creating new lieutenants to do their will. When at last they return to attack the human beings they once ruled in the years of peace, too many of mankind have forgotten that their machine enemies never sleep, but some have forgotten nothing and learned from their triumphs. The brilliant military commander Vorian Atreides, son of a Titan, has the gift of long life from his terrifying father and knows the machines' minds better than any man alive. Norma Cenva, the genius inventor of humanity's best defenses, dreams of new discoveries that will make man invincible. And on the windswept desert planet Arrakis, the power that can give them victory waits. The authors of *Prelude to Dune* have written the triumphant climax to the history of the Dune universe, the story most eagerly anticipated by its readers. If you're familiar with the Dune

universe it is oddly compelling this is a successful space opera that spins in a few genuine surprises locus
