between the ninth and the fifteenth centuries central asia was a major political economic and cultural hub on the eurasian continent in the first half of the thirteenth century it was also the pre eminent centre of power in the largest land based empire the world has ever seen this third volume of christoph baumer s extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe the author explores the rise of islam and the remarkable victories of the arab armies which inspired by their vital austere and egalitarian desert faith established important new dynasties like the seljuks karakhanids and ghaznavids a golden age of artistic literary and scientific innovation came to a sudden end when between 1219 and 1260 genghiz khan and his successors overran the chorasmian abbasid lands dr baumer shows that the mongol conquests while shattering to their enemies nevertheless resulted in much greater mercantile and cultural contact between central asia and western europe

volume ii of the cambridge history of the pacific ocean focuses on the latest era of pacific history examining the period from 1800 to the present day this volume discusses advances and emerging trends in the historiography of the colonial era before outlining the main themes of the twentieth century when the idea of a pacific centred century emerged it concludes by exploring how history and the past inform preparations for the emerging challenges of the future these essays emphasise the importance of understanding how the postcolonial period shaped the modern pacific and its historians

since the earliest of times human beings have endeavored to uncover the causes of prosperity history is the best tool that society possesses for identifying and analyzing the factors that contribute to economic growth yet economic statistics that lend themselves to comparison are hard to come by even academics who specialize in individual countries almost never present a set of statistics covering the whole 20th century and for the previous centuries the data is even more chaotic here for the first time the economic statistics of the world are presented in a rationalized format that allows for an easy comparison across countries and through time part one analyzes the most relevant ideas and theories that have been considered as causal variables of economic growth it summarizes these ideas pedagogically and tests them against the historical data the results of such analyses are highly troubling because they reveal an absence of correlation between theory and reality part two presents a collection of statistics illustrating the development of the world economy during the last centuries the data was extracted from economic history and economic history books from the publications of the world bank the organization for economic cooperation and development the international monetary fund the world trade organization the united nations specialized agencies research institutes and country statistical publications and other books and journals analyzing the data over geography and time sabillon concludes that contrary to contemporary wisdom left to market forces alone the economy will not and does not flourish the factors that cause growth he says still need to be studied with a fresh eye this orderly and consistent presentation of statistics may be just the tool that helps future economic theorists to identify a reliable path to sustained growth this analysis of the long term historical development of the nations of the world is the culmination of a fourteen year research project funded in part by the swiss national fund for scientific research the graduate institute of international studies in geneva switzerland and by the geneva business institute carlos sabillon has an advanced degree from the institute of international studies geneva switzerland in economic history his book manufacturing technology and economic growth was published by m e sharpe inc 2000

iran from 1722 1979 political social economic and religious aspects of iran

this is the first of the two final volumes of the cambridge history of china which describe the efforts of the people's republic of china to grapple with the problems of adaptation to modern times volume 14 deals with the achievements of the economic and human disasters of the new regime's first sixteen years 1949-65 part i chronicles the attempt to adapt the soviet model of development to china and part ii covers the subsequent efforts of china's leaders to find native solutions that would provide more rapid and appropriate answers to china's problems each of the two parts of the volume analyzes the key issues and developments in the spheres of politics economics culture education and foreign relations the contributors all leading scholars of the period show the interrelation of chinese actions in all these spheres and the describe how gradually events led to the cultural revolution launched by mao tse tung in 1966
