from the bestselling author of *A History of God* and *The Great Transformation* comes a balanced nuanced understanding of the role religion plays in human life and the trajectory of faith in modern times why has god become incredible why is it that atheists and theists alike now think and speak about god in a way that veers so profoundly from the thinking of our ancestors moving from the paleolithic age to the present karen armstrong details the lengths to which humankind has gone to experience a sacred reality that it called god brahman nirvana allah or dao she examines the diminished impulse toward religion in our own time when a significant number of people either want nothing to do with god or question the efficacy of faith with her trademark depth of knowledge and profound insight armstrong elucidates how the changing world has necessarily altered the importance of religion at both societal and individual levels and she makes a powerful convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age

from one of the world s leading writers on religion and the highly acclaimed author of the bestselling a history of god the battle for god and the spiral staircase comes a major new work a chronicle of one of the most important intellectual revolutions in world history and its relevance to our own time in one astonishing short period the ninth century bce the peoples of four distinct regions of the civilized world created the religious and philosophical traditions that have continued to nourish humanity into the present day confucianism and daoism in china hinduism and buddhism in india monotheism in israel and philosophical rationalism in greece historians call this the axial age because of its central importance to humanity s spiritual development now karen armstrong traces the rise and development of this transformative moment in history examining the brilliant contributions to these traditions made by such figures as the buddha socrates confucius and ezekiel armstrong makes clear that despite some differences of emphasis there was remarkable consensus among these religions and philosophies each insisted on the primacy of compassion over hatred and violence she illuminates what this family resemblance reveals about the religious impulse and quest of humankind and she goes beyond spiritual archaeology delving into the ways in which these axial age beliefs can present an instructive and thought provoking challenge to the ways we think about and practice religion today a revelation of humankind s early shared imperatives yearnings and inspired solutions as salutary as it is fascinating excerpt from the great transformation in our global world we can no longer afford a parochial or exclusive vision we must learn to live and behave as though people in remote parts of the globe were as important as ourselves the sages of the axial age did not create their compassionate ethic in idyllic circumstances each tradition developed in societies like our own that were torn apart by violence and warfare as never before indeed the first catalyst of religious change was usually a visceral rejection of the aggression that the sages witnessed all around them all the great traditions that were created at this time are in agreement about the supreme importance of charity and benevolence and this tells us something important about our humanity

in the late twentieth century fundamentalism has emerged as one of the most powerful forces at work in the world contesting the dominance of modern secular values and threatening peace and harmony around the globe yet it remains incomprehensible to a large number of people in the battle for god karen armstrong brilliantly and sympathetically shows us how and why fundamentalist groups came into existence and what they yearn to accomplish we see the west in the sixteenth century beginning to create an entirely new kind of civilization which brought in its wake change in every aspect of life often painful and violent even if liberating armstrong argues that one of the things that changed most was religion people could no longer think about or experience the divine in the same way they had to develop new forms of faith to fit their new circumstances armstrong characterizes fundamentalism as one of these new ways of being religious that have emerged in every major faith tradition focusing on

protestant fundamentalism in the united states jewish fundamentalism in israel and muslim fundamentalism in egypt and iran she examines the ways in which these movements while not monolithic have each sprung from a dread of modernity often in response to assault sometimes unwitting sometimes intentional by the mainstream society armstrong sees fundamentalist groups as complex innovative and modern rather than as throwbacks to the past but contends that they have failed in religious terms maintaining that fundamentalism often exists in symbiotic relationship with an aggressive modernity each impelling the other on to greater excess she suggests compassion as a way to defuse what is now an intensifying conflict bonus this edition contains an excerpt from karen armstrong s twelve steps to a compassionate life
