this book constitutes the refereed proceedings of the 25th european conference on information retrieval research ecir 2003 held in pisa italy in april 2003 the 31 revised full papers and 16 short papers presented together with two invited papers were carefully reviewed and selected from 101 submissions the papers are organized in topical sections on ir and the retrieval of structured documents collaborative filtering and text mining text representation and natural language processing formal models and language models for ir machine learning and ir text categorization usability interactivity and visualization and architectural issues and efficiency

the existence by theodore ihejieto the existence is a book of love and life that talks about the world as the existence of human beings and tells human beings to understand that the world

is the love and the life it is a book of planet earth which the planet earth gave to the author because the author asked the planet earth for the book of the world the author is a human being who lost faith in god and called on planet earth to do work and save human beings from evil and death in the world this is a book of a human being who was challenged by evil and death in the world and the human being called on his existence for help and protection the author did not like to die in the world and told his existence that he did not want to die because the author believed that planet earth has the power to save human beings in the world the existence is the faith the hope and the charity that god challenged human beings to find and tell the mountain of evil and death to move away from human beings

the relationship between infection and immunity and autophagy a pathway of cellular homeostasis and stress response has been a rapidly growing field of study over the last decade while some cellular processes are pro or anti infection autophagy has been proven to be both a part of the innate immune response against some microbes and a cellular pathway subverted by some pathogens to promote their own replication autophagy infection and the immune response provides a unified overview of the roles of cellular autophagy during microbial infection introductory chapters ground the reader by delineating the autophagic pathway from a cellular perspective and by listing assays available for measuring autophagy subsequent chapters address virus interactions with autophagy machinery the various roles of autophagy parasitic infection and interactions of bacteria with the autophagic pathway concluding chapters explore the relationships of autophagy to systemic immune responses including antigen presentation or stress and production of ifn gamma designed as a resource for those interested in initiating studies on the relationship between autophagy and infection or immunity autophagy infection and the immune response combines practical state of the art technique descriptions with an overview of the wide variety of known interactions between pathogens and the autophagic pathway
