john pilcher's appointment as his ambassador to japan in 1967 three years after the widely acclaimed tokyo olympics was both judicious and enlightened his role was to be that of a bridge builder between japan and britain following the early post war years of disenchantment distrust and detachment that had earlier marked the relationship between the two countries he brought to his role a particular understanding of japanese civilization and a critical analysis of japanese attitudes and way of life before the war he had had the good fortune to spend time as a language student in kyoto there he came to appreciate japanese culture at its best but as a junior consular official he also came to see other less attractive aspects of japan in this volume sir hugh cortazzi who was to follow in john pilcher's footsteps has compiled the defining reports to whitehall from pilcher's time and as such they offer a valuable record of japan's progress at this important point in her post war history as well as providing unique insights into the activities hopes and expectations of

the british government in her dealings with japan the collection including essays and writings from his private papers which has hitherto remained largely unknown or inaccessible to most researchers provides a platform for john pilcher as a writer and distinguished scholar diplomat

reveals from a non eurocentric perspective how indian states developed and implemented maritime strategies which posed a serious threat to british naval power in the region most books on the colonisation of india view the subject in eurocentric imperial terms focusing on the ways in which european powers competed with each other on land and at sea and defeated indian states on land and viewing indian states as having little interest in naval matters this book in contrast reveals that there was substantial naval activity on the part of some indian states and that this activity represented a serious threat to britain s naval power considering the subject from an indian point of view the book discusses the naval activities of the mahratta confederacy and later those of mysore under its energetic rulers haidar ali and his successor tipu sultan it shows how these states chose deliberately to develop a naval strategy seeing this as the most effective way of expelling the british from india how their strategies learned from european maritime technology successfully blending this with indian technology how their opposition to british naval power was at its most effective when they allied themselves with the other european naval powers in the region france portugal and the netherlands whose maritime activities in the region are fully outlined and assessed and how ultimately the indian states naval strategies failed philip macdougall a former lecturer in economic history at the university of kent is a founder member of the navy dockyards society editor of the society s transactions and the author or editor of seven books in maritime history including the naval mutinies of 1797 the boydell press 2011
