this is an extremely useful and comprehensive illustrated dictionary of heraldic terms a necessity whether one s interest is that of an artist engraver heraldist librarian or genealogist elvin s book is as useful today as it was 110 years ago when the author wrote that the aim of the present work is not to furnish an account of the antiquity and progress of heraldry but to provide as succinctly as possible and in alphabetical order a list of the terms met with in the science with their appropriate illustrations the outstanding feature of this book is the set of 47 plates done by elvin depicting over 2 500 illustrations of the various heraldic charges with blazonings arranged by subject headings such as badges bend chevron cross and the like thus providing a complete dictionary of terms each term having an exact reference to a matching illustration as a result the identification of unrecognized charges is easy

this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work as a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

excerpt from heraldry english and foreign with a dictionary of heraldic terms about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

excerpt from the manual of heraldry a concise description of the several terms used and containing a dictionary of every designation in the science the great revival which has taken place in the study and appreciation of the science of heraldry and the wider and more intelligent interest now taken in armory has induced the publisher to issue a new and revised edition of this work this opportunity has been taken to enlarge and improve the dictionary of heraldic terms and to cut out much of the repetition which was contained in the opening chapters of the previous editions the space thus gained has been used to give a larger and in the light of modern research more correct view of the origin of arms and to add chapters on the law and right to arms and on the heraldic executive the chapter formerly given on precedence has been entirely superseded by inserting the tables now in use in england and in scotland and the whole book has been so revised and rewritten as to form practically a new work though in the past the science has suffered much from the absurd and pedantic origins assigned not only to it but to the armorial achievements of various families its use as an aid to historical research has been long proved and recognised how often has the date of the foundation of some ancient castle or abbey been discovered or a portrait identified from the armorial bearings thereon and many an important point in genealogy elucidated by the charges borne by the individual members of the family explaining their matrimonial alliances their position as cadets or even the origin of the house itself about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to
