this is a print on demand book and is therefore non returnable after showing that today s evangelicals have not fared well in the crucible of modern pluralism lints argues that in order to regain spiritual wholeness evangelicals must relearn how to think and live theologically this book highlights several cultural and theological impediments to doing theology from an evangelical perspective interacts with postmodernism as a theological method and provides a provocative new outline for the construction of a truly transformative evangelical theology in the modern age

in this exciting volume new and emerging voices join senior reformed scholars in presenting

a coherent and impassioned articulation of calvinism for today's world evangelical calvinism represents a mood within current reformed theology the various contributors are in different ways articulating that mood of which their very diversity is a significant element in attempting to outline features of an evangelical calvinism a number of the contributors compare and contrast this approach with that of federal calvinism currently dominant in north american reformed theology challenging the assumption that federal calvinism is the only possible expression of orthodox reformed theology this book does not however represent the arrival of a new calvinism or even a neo calvinism if by those terms are meant a novel reading of the reformed faith an evangelical calvinism highlights a calvinistic tradition that has developed particularly within scotland but is not unique to the scots the editors have picked up the baton passed on by john calvin karl barth thomas torrance and others in order to offer the family of reformed theologies a reinvigorated theological and spiritual ethos this volume promises to set the agenda for reformed calvinist discussion for some time to come

this landmark edition combines berkhof's standard systematic treatment of the doctrines of the reformed faith his magnum opus with his introduction to the study of systematic theology written in a scholarly yet simple style the work includes a thorough bibliography and study questions at the end of each chapter

de chirico istituto de formazione evangelica e documentazione padova italy begins by identifying the elastic contours of evangelical theology in its contemporary outlook then he examines a number of evangelical theologians who have interacted with roman catholicism in general and with roman catholic theology in particular over the past 40 years

classical orthodoxy the reformational understanding of the gospel and the great awakening beliefs and behaviors including missions missiology reflect what the evangelical movement and its mission should be if it is to have a future evangelicals must work and pray together in resubmission of their ways of thinking and working to the word and the ministry of the holy spirit they must recover the faith of the fathers and the mission of the revivalists nothing less will rescue american missions from a marginal role nothing less will reinvigorate historic doctrine and get missions back on the track to world evangelization

assessing the status of evangelical theology at the turn of the century a team of 26 scholars including alister e mcgrath clark pinnock wolffhart pannenberg and stanley grenz honor millard j erickson with this volume edited by david s dockery

this book introduces a new multilateral methodology for the contemporary study of theology it bases this methodology on the idea that there are too many materials contributing as sources for theologizing to sustain the one method fits all approach found in many

systematic theologies within christianity what is needed instead is something that reflects the various and varied natures purposes and tasks of theologians theologizing for their respective contexts engaging materials from a range of christian traditions including evangelicalism the catholic magisterium and a limited range of pan orthodox resources the book analyzes and assesses major factors that have shaped different streams of theology addressing doctrinal development scripture and revelation historical tradition and creeds philosophy and truth sciences and interdisciplinarity experience religious pluralism and culture it demonstrates how these various streams can form a multilateral whole the book concludes by examining the centers and peripherals of methodologies in theologization for a spectrum of theological traditions streams both across and beyond christianity by offering an approach that keeps in step with the increasingly interconnected and pluralistic world in which we live this book provides a vital resource for any scholar of christian theology constructive theology contextual theologies and systematic theology as well as religious studies

what role does scripture play in the task of the church what value do past theological constructs offer today how does culture affect theological reflection in this book the authors move past the enlightenment foundational approach to offer a methodology for doing theology in a postmodern age writing for readers of all denominations they propose a new theological method that uses three sources the spirit speaking authoritatively through the biblical text tradition providing a historical interpretative framework and culture as the context for constructive theological reflection this method they argue fosters a christian theology that acknowledges the whole of god father son and spirit takes full account of the experience of the faith community and is future oriented

in over 2 000 years christianity has made the overwhelming impact on the culture of the western world in particular but culture has also helped to shape the development and form of christianity since the interaction of two such powerful phenomena cannot help but change the other this new book brings together over 1200 citations on christianity and culture which are indexed by subject title and author for easy access

between horror and hope is a study of paul s metaphorical language of death in romans 6 1 11 the scholarly debate focuses on two main issues the origin of the commentatio mortis tradition and its development dr sabou argues that the origin of this terminology is original to paul that it was the apostle s own insight into the meaning of christ s death a death to sin and his understanding of the identity of christ in his death as the anointed davidic king which guided him to create this metaphor of dying to sin as a way of describing the relationship of the believer with sin on the development of this language of death the author argues that this language conveys two aspects horror and hope the first is discussed in the context of crucifixion in which paul explains the believer s death to sin by presenting christ s death as

the death of the anointed davidic king who won the victory over sin and death by rising from the dead paul affirms that believers are coalesced with what was proclaimed about christ s death and resurrection thereby allowing him to assert that the releasing of the body from the power of sin is a result of crucifixion this crucifixion is the condemnation inflicted on our past lives in the age inaugurated by adam s sin and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment in contrast hope is presented in the context of burial the believers burial with christ points to the fact that they are part of christ s family and this is accomplished by the overwhelming action of god by which he pushes us toward the event of christ s death an act pictured in baptism it is this burial with christ that allows believers to share with christ in newness of life

this book sets out to recover the theological tradition of mennonites and other communities within the anabaptist stream moving beyond early anabaptist beginnings and giving attention to the mennonite confessions of faith of the early seventeenth century the author discovers an identifiable and coherent anabaptist mennonite theological tradition this tradition is an important horizon for assimilating the past and provides a point of departure for those of the anabaptist and mennonite tradition who wish to be able to articulate their convictions in the church and the world for a tradition to be usable it must not only point to a multiplicity of voices and opinions it must also illuminate points of unity and have the capacity to orient the contemporary church readers will find this book helpful both in its historical approach and in its applications to current discussions within the church

our sovereign refuge is a study of the pastoral theology of theodore beza the protestant reformer who inherited the mantle of leadership in the reformed church from john calvin countering a common view of beza as supremely a scholastic theologian who deviated from calvin s biblical focus wright uncovers a new portrait of theodore beza beza was not a cold and rigid academic theologian obsessed with probing the eternal decrees of god rather by placing beza in his pastoral context and by noting his concerns in his pastoral and biblical treatises wright shows that beza was fundamentally a committed christian who was troubled by the vicissitudes of life in the second half of the sixteenth century beza believed that the biblical truth of the supreme sovereignty of god alone could support christians on their earthly pilgrimage to heaven this pastoral and personal portrait of beza forms the heart of wright s argument
