archaeologist angela hunter unearths an ancient codex from a native american burial mound but how could an illiterate society have produced the complex writing seven hundred years ago a thriving civilization suddenly vanished as angela deciphers the mysterious codex symbols she begins to unravel one of archaeology s greatest mysteries despite forces trying to stop her from learning the chronicle s secrets angela discovers the horrifying truth can she prevent the tragedies of the past from happening again today

the twelfth century was a time of cultural renewal and innovation in byzantium just as it was in the west in literature the long disused genres of epic satire and the novel or romance took new forms during that century at the same time in language the vernacular made its first tentative literary appearances these developments continued uninterruptedly through the late byzantine and early modern periods scholarship since the nineteenth century has been sharply divided over these texts do they represent the first breakthrough of an emergent modern greek literature or merely a footnote to the byzantine learned tradition what in particular do they have to tell us about the collective self definition of the greek speakers who wrote them roughly during the period 1100 1600 and how has their subsequent reception contributed to defining and consolidating the national identity of the modern greeks since the nation state was established in the 1820s the papers collected in this book explore the relation between literary texts and collective consciousness scrutinizing the evidence of the texts themselves in their late or post byzantine context and assessing how their reception both influenced and was influenced by the processes of

nation building in modern greece

mysteries from the past archaeologist angela hunter unearths an ancient codex from a native american burial mound but how could an illiterate society have produced the complex writing clash of cultures seven hundred years ago a thriving civilization suddenly vanished as angela deciphers the cryptic codex symbols she begins to unravel one of archaeology s greatest mysteries evil unleashed despite forces trying to stop her from learning the chronicle s secrets angela discovers the horrifying truth can she prevent the tragedies of the past from happening again today back cover

the brilliance of a master historian shines through this elegant and engaging memoir of a lifetime s work richard aldous wall street journal over a remarkable career bernard bailyn has reshaped our understanding of the early american past inscribing his superb scholarship with passion and imagination honed by a commitment to rigor bailyn captures the particularity of the past and its broad significance in precise elegant prose his transformative work has ranged from a new reckoning with the ideology that powered the opposition to british authority in the american revolution to a sweeping account of the peopling of america and the critical nurturing of a new field the history of the atlantic world illuminating history is the most personal of bailyn s works it is in part an intellectual memoir of the significant turns in an immensely productive and influential scholarly career it is also alive with people whose actions touched the long arc of history among the dramatic human stories that command our attention a struggling boston merchant tormented by the tensions between capitalist avarice and a constrictive puritan piety an ordinary shopkeeper who in a unique way feverishly condemned british authority as corrupt and unworthy of public confidence a charismatic german pietist who founded a cloister in the pennsylvania wilderness famous for its strange theosophy its spartan lifestyle and its rich musical and artistic achievement and the good townspeople of petersham whose response in 1780 to a draft massachusetts constitution speaks directly to us through a moving insistence on individual freedoms in the face of an imposing central authority here is vivid history and an illuminating self portrait from one of the most eminent historians of our time

this collection brings together twelve essays published between 1988 and 2014 two of which are here translated into english from respectively their original french or german all the essays use gender as the main category of analysis whether of late ancient or early medieval texts or of modern medievalist films the historical studies of medieval europe emphasize the use of manuscript level evidence that is actual sources from the period in question arguably this approach provides a more accurate understanding of the period than does work done on the basis of printed and edited sources furthermore many of the manuscript based essays specifically exploit liturgical or liturgy adjacent materials this is an area of research and a type of manuscript that has rarely been approached through a gendered lens meanwhile the cinematic medievalism essays focus on the processes of remediation and adaptation searching specifically for points at which filmmaking teams diverged from their sources as evidence for the main goals of the films while also attending to production contexts and to reception the juxtaposition in a single collection of scholarship on medieval manuscripts and modern movies illustrates how period specialists can contribute to conversations in the field of historical film studies the book will be of interest to historians of women gender christian liturgy medieval europe medievalism and historical film cs 1110

pinning down byzantium or east rome is as difficult today as it was for contemporaries during its 1 000 year long existence dimitri obolensky sought to characterize its impact on eastern europe in his classic the byzantine commonwealth focusing on the elements of religious doctrine rites and law which ruling elites there took from the emperor acting in tandem with the constantinopolitan patriarchate chapters in this volume revisiting the

byzantine commonwealth address such basic questions as who the byzantines thought they were and how they managed to maintain their hegemonial stance for so long other chapters reappraise the uses of byzantium to elites and also to other sectors of societies from the upper adriatic to the volga surveys are offered of three spheres which functioned independently of and in one case expressly in antithesis to byzantium yet which overlapped and were constantly interacting with it the latin west the islamic christian east and the world of the steppes candidates for commonwealth membership can be found within these spheres too along with transregional networks which functioned regardless of political borders aspects of byzantium appealed to the variegated societies and cultures around it in very different ways with the imperial elite taking keen interest in neighbouring peoples and making the most of soft power as material resources dwindled from the thirteenth century on some periods of outsiders engagement with the empire were short lived but others proved long lasting underpinned by ecclesiastical institutions and monastic networks the volume aims to foster a more rounded approach to the phenomenon of byzantium and a better understanding of how and why it impinges on so many eurasian cultures and polities to this day

this book presents a collective portrait of the inhabitants of Árpádian and angevin era hungary identified by their countrymen as rutheni many members of this group hailed from the lands of halych chernihiv kyiv and volhynia and migrated to hungary under the pressure of circumstances eventually carving out for themselves a position of prominence in the kingdom s social hierarchy and political affairs drawing on a range of sources this is the first work to make extensive use of latin language documents to throw light on the vicissitudes of the life of rus settlers and those bearing rus related names or bynames in medieval central europe revealing their important role in contemporary social and political life

an entertaining and digestible volume that demystifies science from the author of 16 bestselling popular science books crave answers a feast of science demystifies the chemistry of everyday life serving up practical knowledge to both inform and entertain guaranteed to satiate your hunger for palatable and relevant scientific information dr joe schwarcz proves that chemical is not necessarily synonymous with toxic are there fish genes in tomatoes can snail slime cream and bone broth really make your wrinkles disappear what s the problem with sugar resistant starch hops in beer microbeads and secret cancer cures are natural products the key to good health and what is fake news all about dr joe answers these questions and more cutting through the fat of story suggestion and social media speculation a feast of science gets to the meat of the chemical reactions that make up our daily lives

this volume is the first one in a collection connected to the prin project on ruling in hard times patterns of power and practices of government in the making of carolingian italy its focus lays on bishops and their networks of relationships in late 8th and 9th century italy the episcopal contribution to the inclusion of the lombard kingdom in the carolingian social and political landscape is especially analyzed from the perspective of the cultural exchanges of ideas texts and manuscripts that bishops created or used to carry out their public and pastoral duties each paper focuses on a specific episcopal figure or area reconstructing the scope and extent of the relationships of which they were the pivot the aim is to provide as comprehensive a picture as possible of the cultural networks that crossed carolingian italy and the ways in which bishops shaped and made use of them

chronology of the library 1841 1901 50th report 1901 02

using the works of bacon hobbes and adam smith as well as historical examples drawn from the last two centuries busch shows how the ideas initially proposed by these thinkers became reified as scientism statism and marketism systems of belief that a single mode of ordering could solve the riddle of society and thereby supplant moral responsibility busch contrasts this approach with concrete examples of successful attempts to extend democracy into these areas to create multiple orderings so that moral responsibility is neither crushingly heavy on individuals nor unbearably light on society

like many apparently simple devices the vertical water wheel has been around for so long that it is taken for granted yet this picturesque artifact was for centuries man s primary mechanical source of power and was the foundation upon which mills and other industries developed stronger than a hundred men explores the development of the vertical water wheel from its invention in ancient times through its eventual demise as a source of power during the industrial revolution spanning more than 2000 years terry reynolds s account follows the progression of this labor saving device from asia to the middle east europe and america covering the evolution of the water wheel itself the development of dams and reservoirs and the applications of water power

Right here, we have countless books **The Franklin Codex By Dr Pescatore** and collections to check out. We additionally present variant types and in addition to type of the books to browse. The enjoyable book, fiction, history, novel, scientific research, as with ease as various extra sorts of books are readily welcoming here.
