the law relating to town and country planning has a major impact upon the physical environment and affects private citizens landowners and developers alike this third edition is a comprehensive text for students practitioners and members of the general public on this difficult area of law following the planning and compulsory purchase act 2004 the third edition of planning law and practice contains a complete revision of plan making and the control of development as well as incorporating recent case law together this provides up to date details of the operation of the current english planning system the successful format adopted in the first edition of this book which was awarded the gold award for best reference work by the chartered institute of building in 1999 has been retained planning legislation is dealt with in the main chapters while further chapters use relevant case law to amplify the sometimes complex statutory material in addition the book outlines other areas of land law such as european legislation non planning controls and public investment

countries which take spatial planning seriously should take planning law and property rights also seriously there is an unavoidable logical relationship between planning law and property rights however planning by law and property rights is so familiar and taken for granted that we do not think about the theory behind it as a result we do not think abstractly about its strengths and weaknesses about what can be achieved with it and what not how it can be improved how it could be complemented such reflections are essential to cope with current and future challenges to spatial planning this book makes the often implicit theory behind planning by law and property rights explicit and relates it to those challenges it starts by setting out what is understood by planning by law and property rights and investigates theoretically and by game simulation the relationships between planning law and property rights it then places planning law and property rights within their institutional setting at three different scales when a country undergoes enormous social and political change when there is fundamental political debate about the power of the state within a country and when a country changes its legislation in response to european policy not only changing institutions but also global environmental change pose huge challenges for spatial planning the book discusses how planning by law and property rights can respond to those challenges by adaptive planning by adaptable property rights

and by public policies at the appropriate geographical level planning by law and property rights can fix a local regime of property rights which turns out to be inappropriate but difficult to change it questions whether such regimes can be changed and whether planning agencies can make such undesirable lock ins less likely by reducing market uncertainty and if so by what means

each of the jurisdictions within the uk and ireland is refining the operational characteristics of its planning system and while there are some common practices it is also the case that there are substantive divergences in each territory the planning template is fundamentally shaped within a dynamic legal context and thus students and practitioners of planning need accessible informative and up to date literature dealing with this matter planning law and practice in northern ireland provides an interpretive narrative of the statutes case law and planning procedures that have shaped its planning system with due regard being given to the combined influences emanating from european union uk and northern ireland planning governance the contributions in this book explore the evolution of planning in northern ireland and discuss key facets of development management enforcement environmental law equality property law and professional ethics this book makes an important contribution to the wider literature in this field and provides an essential reference to students planning practitioners and researchers

this comprehensive yet concise textbook is the first to provide a focused subject specific guide to planning practice and law giving students essential background and contextual information to planning s statutory basis the information is supported by practical and applied discussion to help students understand planning in the real world the book is written in an accessible style enabling students with little or no planning law knowledge to engage in the subject and develop the necessary level of understanding required for both professionally accredited and non accredited courses in built environment subjects the book will be of value to students on a range of built environment courses particularly urban planning architecture environmental management and property related programmes as well as law and practice orientated modules

while the first edition focused on land use planning as it affects and is affected by property rights this radically revised edition will expand and explore this and other core aspects of land use planning ensuring that those practices are effective legitimate morally just and economically sound
