what role did the courts play in the demise of germany's first democracy and hitler's rise to power courtroom to revolutionary stage challenges the orthodox interpretation of weimar political justice henning grunwald argues that an exclusive focus on reactionary judges and a preoccupation with number crunching verdicts has obscured precisely that aspect of trials most fascinating to contemporary observers their drama drawing on untapped sources and material previously inaccessible in english grunwald shows how an innovative group of party lawyers transformed dry legal proceedings into spectacular ideological clashes supported by powerful party legal offices which have hitherto escaped scholarly notice almost entirely they developed a sophisticated repertoire of techniques at the intersection of criminal law politics and public relations harnessing the emotional appeal of tens of thousands of trials communists and emulating them national socialists institutionalized party legal aid in order to build their ideological communities defendants turned into martyrs trials into performances of ideological self sacrifice and the courtroom into revolutionary stage as one prominent party lawyer put it it is this political justice as revolutionary stage that most

powerfully impacted weimar political culture while it helps to explain weimar's demise this argument about the theatricality of justice transcends interwar germany trials were compelling not because they offered instruction about the revolutionary struggle but because in a sense they were the revolutionary struggle the ideological struggle their message ran left no room for fairness no possibility of a neutral platform justice was unattainable until the republic was destroyed

the german a7v and the british mark iv were similar in weight size and speed but differed significantly in armour armament and maneuverability the a7v had thicker armour and had nearly double the horsepower per ton the mark iv's pair of side mounted 6pdr cannons forced the vehicle to present its side arc to an enemy in order to fire one of its main guns possessing twice as many machine guns as the mark iv the a7v had a frontally mounted 57mm gun that proved capable of defeating the mark iv's armour the mark iv's rhomboid design proved superior in crossing trenches climbing obstacles and moving over rough terrain as the first tank versus tank engagement in history the fighting around villers
