sixty years after a book's publication its author remembers his lost love and missing son while a teenage girl named for one of the book's characters seeks her namesake as well as a cure for her widowed mother's loneliness

a philosophical history of love explores the importance and development of love in the western world wayne cristaudo argues that love is a materializing force a force consisting of various distinctive qualities or spirits he argues that we cannot understand western civilization unless we realize that within its philosophical and religious heritage there is a deep

and profound recognition of love's creative and redemptive power. Cristaudo explores philosophical love, the love of wisdom and the love of god and neighbor. The history of the west is equally a history of phantasmic versions of love and the thwarting of love. Thus the history of our hells may be seen as the history of love's distortions and the repeated pseudo victories of our preferences for the phantasms of love. Cristaudo argues that the catastrophes from our phantasmic loves threaten to extinguish us, forcing us repeatedly to open ourselves to new possibilities of love to new spirits fusing philosophy, literature, theology, psychology and anthropology. The volume reviews major thinkers in the field from Plato and Freud to Pierce, Shakespeare and Flaubert. Cristaudo explores the major themes of love of the church, romantic love and the return of the feminine, the conflict between familial and romantic love, love in a meaningless world and the love of evil and the evolutionary idea of love with Cristaudo, the reader embarks on a journey not just through time but also through the different kinds, origins and spirits of love.

In a work spanning 2,500 years, 55 experts examine the meaning of love, what it feels like, how it should be expressed on the body and in language, its representation in art and literature, its explanation by theology and by science, and who should experience it and towards whom. Individual volume editors ensure the cohesion of the whole and to make it as easy as possible to use, chapter titles are identical across each of the volumes. This gives the choice of reading about a specific period in one of the volumes or following a theme across history by reading the relevant chapter in each of the six. The six volumes cover 1. Antiquity (500 BCE-400 CE), 2. Middle Ages (400-1400), 3. Early Modern Age (1400-1700), 4. Age of Enlightenment (1700-1800), 5. Age of Empire (1800-1900) and 6. Modern Age (1900-present).

The one emotion that matters most to many people is the one about which social thinkers rarely speak: love. For many people, love is the thing that matters most in their lives. They are searching for love, hoping to find in love a kind of happiness that they cannot find in their work or by surrounding themselves with material goods. But where does this peculiar and powerful blending together of love and happiness come from, and why do we find it such a compelling idea today? In this short book, Jean-Claude Kaufmann offers a fresh account of the history of a feeling unlike any other. The modern idea of love as passion was born in the 12th century, but it was marginalized by the rise of a kind of instrumental calculating reason that became increasingly central to modern societies. As calculating reason began to encroach on the personal domain, many individuals sought to escape from it, searching for happiness elsewhere. As our societies became dominated by calculating reason and selfish individualism, we search elsewhere for the kind of happy love that will heal all our wounds. This is why we experience so many changes of heart in our personal lives: at times we are coldly calculating, and then a few moments later we sacrifice ourselves to love without a second thought. Written by one of France's leading sociologists, this highly readable book sheds new light on love and happiness and will resonate with many readers.

A wide-ranging, deep probing history of what love has meant in the western world, primarily a history of emotional relationships between the sexes. It is for everyone who seeks a deeper understanding of the bond that unites men and women.
