the poetics of philosophy is my attempt to hear what academic philosophy attempts to
silence namely how reason resonates with madness it is thus a stinging of the great
steed of academia in order to recover and re experience what otherwise would be
repressed by the exigencies of bureaucratic commodity life in the late capitalist world
an analysis of plato s principal dialogues with a view towards developing the author s
conception of thinking knowing and loving it incorporates the insights of heidegger
nietzsche and derrida provoking the world mind to reflect upon its phenomenological
possibility for being dispersed within its daily routines or business the book argues for
the metaphysicality of physical reality articulated through the narrative trope of fractal
dialectical logic the present volume s more general implications extend the insights of
the author s previous work in the area of social science i refer to the possibility for
world communist revolution which is predicated on communism s thorough ridding itself
of its naïve materialist perspective the relics of a newtonian universe and its embracing
of a fractal dialectical logic or similar that is better able to incorporate the yearning for
immortality desire to experience beauty and the need to have a meaningful life that
define human species life to articulate such a framework is the aim of my general
