this volume explores the breadth and interdisciplinarity of human evolution studies presenting 20 interviews with scholars covering the broad scientific themes of quaternary and archaeological science palaeolithic archaeology biological anthropology and palaeoanthropology primatology and evolutionary anthropology and evolutionary genetics

integrating developmental principles into a lifespan perspective this chronologically organized text presents theory up to date research issues and applications it covers all aspects of human development this text encourages students to develop critical thinking skills through features examining issues such as day care health care and surrogate parenting

exhilarating a work of scholarship but also inspiration go and read jablonka and change the world christina patterson sunday times an unexpected bestseller in france it has sparked conversations challenges a highly acclaimed bestselling work from one of france s preeminent historians what does it mean to be a good man to be a good father or a good partner a good brother or a good friend in this insightful analysis social historian ivan jablonka offers a re examination of the patriarchy and its impact on men ranging widely across cultures from mesopotamia to confucianism to christianity to the revolutions of the eighteenth century jablonka uncovers the origins of our patriarchal societies he then offers an updated model of masculinity based on a theory of gender justice which aims for a redistribution of gender just as social justice demands the redistribution of wealth arguing that it is high time for men to be as involved in gender justice as women jablonka shows that in order to build a more equal and respectful society we must gain a deeper understanding of the structure of patriarchy and reframe the conversation so that men define themselves by the rights of women widely acclaimed in france this is an important work from a major thinker

this book critically discusses the issues associated with behavior problems in the early years and their implications for practice

this contributed volume addresses the global scale of urbanization and its impacts on biodiversity by adding human capital cities are incubators for new ideas and technologies creating the possibility for socially and environmentally sensitive growth but this is rarely seen urban ecology an essential field that supports planning based on environmental perspectives is a new science in tropical countries this book discusses the social inequity embedded in tropical cities and explores how this inequity also materializes in biodiversity with poor neighborhoods of tropical cities lacking sufficient access to green space and therefore reduced access to the benefits of nature and poor support for biodiversity with the current biodiversity crisis the traditional approach to protecting pristine areas is insufficient the chapters in this volume illustrate how tropical cities can act as spaces for biological conservation ecological literacy can help cities reconcile the needs of both people and of nature this book compiles studies by experts from more than 100 institutions and 29 countries on the ecology and biodiversity of tropical cities at multiple scales and applies their

studies to urban planning and management the audience for this book includes researchers students and professionals working on environmental social economic cultural political architectural and development projects in urban areas offering a deep and timely discussion of their influence on the fauna and flora of tropical cities

highlighting the most important topics issues questions and debates these two volumes offer full coverage of major subthemes and subfields within the discipline of anthropology

a commanding meditation on the development of early human imagination
