chronicles two decades of war between athens and sparta

this provocative and illuminating book provides a new perspective on the development of political thought from homer to machiavelli to c. 1800 and gertrude stein who is introduced here for the first time as a writer of political significance providing nuanced readings of key texts by these and other thinkers norma thompson locates a powerful theme that the political health of organized political communities from the ancient polis to the modern state to contemporary democracy requires a balance between masculine and feminine qualities although most critics view the western tradition as a progression away from misogyny and toward rights for women thompson contends that the need for balance in the political community was well understood in earlier eras only now has it been almost entirely overlooked in our focus on surface indications of strict gender equality thompson argues that political rhetoric must once again promote the reconciliation of masculine and feminine forces in order to achieve effective politics and statecraft

a brilliant examination of american complacency and how it puts the nation's and the world's security at risk the wall street journal the ancient greeks hardwired a tragic sensibility into their culture by looking disaster squarely in the face by understanding just how badly things could spiral out of control they sought to create a communal sense of responsibility and courage to spur citizens and their leaders to take the difficult actions necessary to avert such a fate today after more than seventy years of great power peace and a quarter century of unrivaled global leadership americans have lost their sense of tragedy they have forgotten that the descent into violence and war has been all too common throughout human history this amnesia has become most pronounced just as americans and the global order they created are coming under graver threat than at any time in decades in a forceful argument that brims with

historical sensibility and policy insights two distinguished historians argue that a tragic sensibility is necessary if america and its allies are to address the dangers that menace the international order today tragedy may be commonplace brands and edel argue but it is not inevitable so long as we regain an appreciation of the world s tragic nature before it is too late literate and lucid sure to interest to readers of fukuyama huntington and similar authors as well as students of modern realpolitik kirkus reviews

this edition of the u s army war college guide to national security policy and strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the war college the 5th edition is published in two volumes that correspond roughly to the department of national security and strategy s core courses theory of war and strategy and national security policy and strategy like previous editions this one is based on its predecessor but contains both updates and new scholarship over a third of the chapters are new or have undergone significant rewrites many chapters some of which appeared for years in this work have been removed nevertheless the book remains unchanged in intent and purpose although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to america s future senior leaders the book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process both volumes are organized to proceed from the general to the specific thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues similarly the second volume begins by examining the policy strategy process moves to a look at the strategic environment and concludes with some specific issues this edition continues the effort begun in the 4th edition to include several short case studies to illustrate the primary material in the volume

deterrence theory which emerged during the cold war explains how states can use nuclear threats to prevent nuclear

war today however the threat landscape is significantly more complex alongside ever more sophisticated nuclear weapons arsenals contemporary threats include cyberwarfare anti satellite weapons robotic drones and advanced conventional weapons to deal with the new threat environment the pentagon identified five operational domains land sea air space and cyberspace the resulting model is an integrated flexible regime that is able to deter threats across domains in this volume a leading cast of scholars and national security practitioners explore the logic and application of cross domain deterrence in theory and practice

this edition of the u s army war college guide to national security policy and strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the war college the fourth edition is published in two volumes that correspond roughly to the department of national security and strategy s core courses theory of war and strategy and national security policy and strategy like previous editions this one is largely an expansion of its predecessor rather than a major rewriting about a quarter of the chapters are new and several others have undergone significant rewrites or updates however approximately half of the book remains unchanged although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to america s future senior leaders the book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process both volumes are organized to proceed from the general to the specific thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues similarly the second volume begins by examining the policy strategy process moves to a look at the strategic environment and concludes with some specific issues this edition adds several short case studies that can be used to illustrate the primary material in the volume

the famous controversialist and bestselling author of balkan ghosts extracts the best wisdom of the ages for today s

world leaders from sun tzu and thucydides to hobbes and machiavelli

discusses the contributions of eight influential leaders of ancient greece including solon themistocles pericles alcibiades epaminondas philip alexander and pyrrhus

essay from the year 2014 in the subject philosophy philosophy of the ancient world grade 1 course thucydides language english abstract in the knights aristophanes mocks his adversary cleon and comments on the phenomenon of demagoguery in democratic athens the play first produced in 424 b c entrusts a sausage seller to rival the paphlagonian a thinly veiled cleon in flattering and gaining the approval of the demos 1 a thorough examination of the comedy serves to demonstrate that aristophanes attacks not democracy itself but unscrupulous demagogues like cleon and hyperbolus as well as the tendency of the athenian demos to intellectual laziness which allows the practitioners of flattery to bribe the people with their own money

seminar paper from the year 2014 in the subject politics region usa grade 1 3 course the federalist language english abstract the significance of antiquity and of examples drawn from antiquity during the american founding era is contested among scholars while hannah arendt asserted that without the classical example the american revolutionaries conscious of emulating ancient virtue would not have had the courage to rebel bernard bailyn famously suggested that frequent references to antiquity were merely illustrative not determinative of revolutionary thought as familiarity with antiquity was evident during the revolutionary war it is less clear what role it played in the construction of the new american regime under the constitution of 1787 a time during which not virtuous warfare but positive political philosophy was called for hence a thorough examination of the federalist shall serve to illuminate the extent to which the founding generation s political science was inspired by ancient precedent resulting in the conclusion that examples drawn from antiquity did not supersede those drawn from other periods in human history and that therefore no unique

or special status can be ascribed to antiquity in this context

a journal of political philosophy

Right here, we have countless book **The Landmark Thucydides** and collections to check out. We additionally provide variant types and afterward type of the books to browse. The standard book, fiction, history, novel, scientific research, as capably as various other sorts of books are readily comprehensible here.
